POMEROY AND NEWARK RAIL TRAIL TO OPEN IN SEPTEMBER

The long anticipated Pomeroy and Newark Rail Trail will officially open on September 10. A ceremony to open the Trail will be held at 11:00 a.m. on Monday, September 10 at the confluence of the Pomeroy and James F. Hall Trails.

A sister trail to the James F. Hall Trail that opened in 2003, the Pomeroy and Newark Rail Trail will extend north through Newark along the old Pomeroy and Newark Rail Line into the White Clay Creek State Park. It will provide direct access to Main Street, the Newark Shopping Center, and the University of Delaware's Laird Campus. The trail features an 8'-10' wide hard surface, lights for night time use, emergency call boxes, will be ADA accessible, and approximately two (2) miles long.

The City worked closely with consultant, Pennoni Associates, Inc, and construction firm Merit Construction Engineers to create a railroad theme along the trail corridor. Trail users will find static displays and kiosks that show old photos of the operating rail line and information about past freight and passenger rail service to and from Newark.

The City is very excited about the addition of the trail to Newark's trails network and the connectivity it provides the City and beyond.

Newark would like to thank these project partners for their support and assistance:

What's New Downtown

As available space along East Main Street becomes increasingly desirable and scarcer, development has significantly picked up along Elkton Road, particularly from Main Street to West Park Place. The new mixed-use construction and development pattern that is emerging is an extension of our existing, and vibrant downtown district, and as such, Newark's City Council has renamed this area to "South Main Street," effective January 1, 2013.

East Main Street is certainly seeing its fair share of redevelopment and investment as well, and we look forward to a number of new businesses planning to open their doors in the coming months – Twist Boutique at 46 E. Main Street, Taverna at 121 E. Main Street, Total Meltdown at 145 E. Main Street and on the soon-to-be South Main Street: Jake's Wayback Burgers, Tantini, and The Greene Turtle. We look forward to having each of these businesses in our downtown and hope that you take the opportunity to enjoy them!

City of Newark 2012 Holiday Refuse/Recycling Collection Schedule

The regular refuse/recycling collection schedule must be adjusted during the year for City holidays. The City has two residential collection schedules - one on Monday and Thursday and the other on Tuesday and Friday. Yard waste collections are normally made on Wednesdays.

Wednesdays are also reserved for refuse/recycling collections when there is a holiday during that week. If there is a holiday on Monday, Monday's route is covered on Tuesday and Tuesday's route is rescheduled for Wednesday. Similarly, if the holiday falls on Friday, Thursday's collection is made on Wednesday, and Friday's route is rescheduled for Thursday. The holiday refuse/recycling collection schedule allows for the collection of refuse and recycling once each per week. **Green Wednesday Yard Waste collection is canceled during weeks containing a holiday.**

Holiday	Refuse/Recycling Normally Collected	Will Be Collected
Labor Day Monday, Sept. 3	Monday, Sept. 3 Tuesday, Sept. 4 Wednesday, Sept. 5 – No yard waste collection	Tuesday, Sept. 4 Wednesday, Sept. 5
Thanksgiving Day Thursday, Nov. 22	Thursday, Nov. 22 No changes to Friday's recycling collection schedule Wednesday, Nov. 21 - No yard waste collection	Wednesday, Nov. 21
Christmas Day Tuesday, Dec. 25	Tuesday, Dec. 25 Wednesday, Dec. 27 - No yard waste collection	Wednesday, Dec. 26
New Year's Day Tuesday, Jan. 1	Tuesday, Jan. 1 Wednesday, Jan. 2 – No yard waste collection	Wednesday, Jan. 2

WINTER YARD WASTE COLLECTION: Due to the low volume of brush during this time period, the City is taking advantage of the opportunity to save fuel during January and February. During these two months, yard waste will only be collected from those who call the Public Works Department at (302) 366-7040 to schedule their yard waste collection. This will be done on a first call, first-served basis. Regular "Green Wednesday" yard waste collection will resume on March 13.

ADOPT-A-STREET & HELP TO KEEP NEWARK FREE OF LITTER

Our Adopt-A-Street Program allows volunteers or organizations to adopt a section or entire street within the City. By doing so you are required to commit to performing litter patrol a minimum of four times per year. Please consider adopting a street in your neighborhood and assist with improving the cleanliness and aesthetic value of the area. For additional information, visit or call the Public Works Department at (302) 366-7040 and ask for an information packet! Together we can ensure Newark is a nice place to live for years to come.

Cooperative Extension programs and employment are available to all without discrimination. Evidence of noncompliance may be reported through your local Cooperative Extension Office.

Coming downtown and worried about parking? Stop worrying! With three municipal parking lots and plenty of on-street parking, shopping and dining downtown is convenient and hassle-free. Nearly 60 downtown businesses are currently signed up to participate in the Newark Merchant Validated Parking program for the Municipal Lots. Customers of the participating businesses may park for free for a period of time. More businesses are being added all the time. For an up-to-date list of merchant validation locations, go to www.enjoydowntownnewark.com/Parking.htm or look for the "Newark's Great We Validate" sticker in the windows of participating businesses.

Flood Insurance — Do you need it?

You may want to consider obtaining flood insurance if you live in the 100-year floodplain along the main channels of the Christina and White Clay Creeks. Homes built before the adoption of City floodplain regulations may likely be at greater risk of flooding during a severe storm.

Be advised that most homeowners' policies specifically exclude damage caused by floodwaters from rising water, inadequate drainage and wind driven rain. Fortunately, the National Flood Insurance Program (NFIP) will provide this important insurance to Newark property owners that reside in a floodplain.

This protection has been made available to Newark and other communities that have taken steps to manage and reduce the chances for local residential flooding. Our rigorous floodplain regulations, rated a "Class 7" designation by the Federal Emergency Management Agency, allows Newark residents to take advantage of flood insurance premiums that are 15% lower than the national average. We are proud to acknowledge that our "Class 7" rating is the highest rating of any city in the State of Delaware.

The NFIP coverage is available to any Newark owner or renter of insurable property. To purchase NFIP flood insurance, contact any licensed property insurance agency or broker. If you are not sure if your property is located within the 100-year floodplain of the Christina or White Clay Creeks, please call the Planning and Development Department at (302) 366-7030. Floodplain maps and NFIP brochures are available at both the Planning and Development Department and the Newark Free Library.

Protect Yourself From Sewage Back Ups

The City of Newark maintains more than 100 miles of sanitary sewer mains located along road rights-of-way and utility easements. In spite of our best efforts blockages of the mains occur which can cause sewage to back up into homes and businesses.

The City is generally not responsible or liable for costs associated with the clean up and repair of the damage caused by such an event.

Residents and business owners can take steps to protect themselves from these situations:

1. Standard property insurance typically excludes coverage for damage caused by water backing up into the structure. However, riders can be purchased that will cover some or all of the damages caused by sewage backing up into the home.
2. There are also circumstances where it may be prudent to install a back flow device to prevent water from backing up into the home or business. A plumber can help you determine if this would be a good choice.
3. Do not put fats, oils, grease, rags, cloth or disposable diapers, sanitary napkins, or paper products, other than toilet paper, down the drain. These items frequently cause problems in the mains and laterals that cause sewage to back up.

In the event that you experience a back up, please call the Water and Wastewater Department at (302) 366-7055 (24 hours a day) and we will send a crew out as quickly as possible to determine where the blockage is located and clear the blockage if it is found to be in the sewer main. If the blockage is in the lateral, it is the responsibility of the property owner to make the necessary arrangements to have the line cleaned.

If you have questions regarding this information, please call the Water and Wastewater Department at (302) 366-7055 during normal business hours and we will do what we can to assist you.

Have you seen this in your neighborhood - Do you know why it is important?

Let's take a step back for a quick overview of the City's stormwater program. The City is covered under a federally required permit and is obligated to perform certain tasks to help keep our stormwater clean and protect local streams. This program, called the NPDES (National Pollutant Discharge Elimination System) Stormwater Program, has been in place since 2003. The program has six elements to it, and requires a cooperative effort between several departments in the City, as well as collaboration with multiple organizations and agencies. The six required elements, called Minimum Control Measures, are:

- ☛ Public Education/Outreach – Activities such as Newark Day and Community Day educational booths, school programs, and educational utility bill mailings.
- ☛ Public Involvement/Participation – Activities such as storm drain marking, community cleanups, and Adopt-A-Street.
- ☛ Illicit Discharge Detection and Elimination – Activities such as outfall inspections, illicit discharge complaint investigation, and participation in household hazardous waste collection events.
- ☛ Construction Site Runoff – Activities such as inspecting active sites, requiring drainage/maintenance agreements, and reviewing plans.
- ☛ Post-Construction Runoff – Activities such as inspecting stormwater management areas, and performing maintenance on stormwater management areas.
- ☛ Good Housekeeping for Municipal Operations – Activities such as street sweeping, catch basin cleaning, and vehicle maintenance.

So, the storm drain marker above is a visible reminder that we all need to do our part to keep pollutants out of storm drains and, therefore, our local streams. If you want to know more about the stormwater program, contact Kelley Dinsmore, Stormwater Program Coordinator at (302) 366-7040, or visit the stormwater program website at: www.cityofnewarkde.us/NPDESstormwaterprogram

Fat-Free Sewers:

Prevent Fats, Oils and Greases from Damaging Your Home and the Environment.

Grease is a byproduct of cooking that comes from meat fats, lard, oil, shortening, butter, margarine, food scraps, baked goods, sauces and dairy products. When washed down the sink, grease sticks to the insides of sewer pipes (both on your property and in the street). Over time, it can build up and block an entire pipe.

Caution: Home garbage disposals do not keep grease out of the plumbing system. Moreover, hot water and products such as detergents that claim to dissolve grease only pass it down the line and cause problems elsewhere.

You Can Help!

- Never pour grease down sink drains or into toilets.
- Scraping grease and food scraps into a can or the trash for disposal (or recycling where available).
- Putting baskets/strainers in sink drains to catch food scraps and other solids, and emptying them into the trash.
- Speaking with your friends and neighbors about how to keep grease out of sewers.

Make Your Own Rain Barrel

Are you interested in making your own rain barrel? Visit the website below, and scroll to the bottom of the page to find a Rain Barrel brochure detailing how to make your own, and the parts you will need. Keep in mind, there are many ways to make one and you don't have to use a barrel – you can use a large terra cotta pot or an old trash can with a tight-fitting lid. Be creative and conserve water at the same time.

The City of Newark is committed to providing recreational opportunities to everyone without regard to economic circumstances. For this reason, a Fee Assistance Program is available for qualifying individuals (youths and adults). If you are interested in finding out more about the program, you are encouraged to contact Joe Spadafino, Recreation Superintendent, at the Parks and Recreation office for more information. They don't need to come to the skills session unless they request to be placed on a different team. At the skills session, players will go through a series of basketball drills. All skills sessions will be held at West Park Elementary School or Newark High School.

Volunteer Coaches: Coaching is a very rewarding way to spend time with your child, have fun and help the program, too. Extensive experience is not required – just a desire to work with youngsters. All ages

Enjoy Thanksgiving Day morning in the company of Newark neighbors and friends. The Parks and Recreation Department, area merchants and volunteers celebrate our 26th year of gathering together to offer this special breakfast. Our mission is to create a warm and caring atmosphere among community members, older adults and area students who are unable to share the holiday with family members or a companion. Join us for a hearty breakfast and a little fellowship. This year's menu will include pancakes, eggs, sausage, fruit, coffee, juice, and tea. Advanced registration is suggested. Volunteer assistance is needed; please call 366-7069/7060 for more information. This year, we are holding an optional food drive for the Delaware Food Bank. Please bring a canned item (fruit, vegetables, meat, tuna) the day of the breakfast and we will make sure it gets delivered to the Food Bank (www.fbd.org).
