

City Manager's Weekly Report

Friday, July 10, 2015

Department:

Administration - City Manager

Notable Notes:

Mayor and Council -

I held a meeting last month with staff (Police, Legislative, Administration, and IT) to explore opportunities to improve the timeliness for completion of our Council meeting minutes. I am happy to say that this resulted in a test of outsourcing the completion of the minutes to determine feasibility and satisfaction as well as efforts to streamline the necessary engagements between the Police Department and the Legislative Division (Solicitors and Alice Van Veen) that have been noted to restrict time for various other job duties within the City Secretary's Office. To date the outsourcing has worked well, and we expect to continue in this fashion. Likewise, processes to streamline information sharing have been created and staff will be trained in the near future. These measures are also expected to allow for reduced overtime within the Legislative Division.

Please find attached a draft ordinance that was shared by the League of Local Governments this week in association with HB192. I have also shared it with our Lobbyist Rick Armitage.

It is with great pleasure that I call your attention to the Finance Department weekly and the notation related to our audit internal control letter. You will note among other things that we have successfully accomplished efforts that led to the Segregation of Duties comment being removed. I thank all members of our accounting and purchasing teams for working to make this happen. Great job!

Attached you will find a noise waiver provided for work associated with the Newark Shopping Center project.

Please note that I will be out of the office Friday the 10th but available by cell phone.

Activity or Project:

919 Rockmoss Property

Description:

I wanted to share with you the attached Sheriff's Sale notice provided by Deputy City Solicitor Paul Bilodeau.

Status: In-Progress

Expected Completion: 7/11/2015

Execution Status: On Track

Activity or Project:

CSX Rail Crossing Improvements Update

Description:

DelDOT staff/consultants met with NPD staff to further go through the details of the proposed signing/striping/tubular marker upgrades late last week. We should have a plan for all to review by the end of this week. It is my understanding that DelDOT's rail staff are working on the draft agreement between DelDOT and CSX on this topic as well. A draft roadway signing and pavement marking plan (with tubular markers/flexposts) is being reviewed, and I have been advised that DelDOT work orders will be issued as soon as the plan and agreement are finalized.

Status: In-Progress

Expected Completion: 8/28/2015

Execution Status: On Track

Activity or Project:

Description:

Status:

Expected Completion:

Execution Status:

Department:

Electric Department

Notable Notes:

The line crews and electricians have been working to get 90 East Main ready to go on line. This substation transformer was delivered last week and needs some poles set for the 34kV feed and communication conduits and fiber optic circuits run to get the controls and alarms on the SCADA system.

The line crews also continued working with the tree trimming contractor on the 34kV circuits, by trimming, switching circuits, flagging, and positioning the crash truck.

Engineering has been working on voltage problems uncovered by the hot weather and the smart meter system. Engineering also compiled the University's energy usage for June used in billing and load forecasting by DEMEC.

The meter technician and engineering installed a recorder on a commercial customer because of power quality issues.

Activity or Project:

Alder Creek

Description:

Installing underground cables and padmount transformers for the complex.

Execution Status:

Department:

Finance Department

Notable Notes:

I completed sixth of six one-hour Microsoft Excel Intermediate Training Sessions hosted by the City's IT Division this week. I will participate in the advanced training sessions in July and August before designing a custom course with advanced tricks and tips for Newark users.

Payments and Utility Billing

The group handled 442 phone calls the week of 6/29/15 with an average call length of 5:22 and an average hold & queue time (average speed of answer) of 7:48. The group also processed 3,704 utility payments and CityView transactions while the Welcome Center processed 354 visitors. 201 service calls were initiated by Payments and Utility Billing in response to the calls and visitors. The group's average speed of answer and abandonment rate regressed this week after successive improvement in each of the three prior weeks. One of our senior representatives was on vacation the week of the 29th, which impacted our performance, but it was promising to see our newest staff members address the challenge during the week. Our statistics will improve as our newest staff members recently completed their onboarding training and continue to participate in more advanced training, which will be reinforced with experience over time.

Accounting

With the successful completion of the 2014 independent financial audit and the publication of the

Comprehensive Annual Financial Report (CAFR), the Finance team is putting increased attention on the 2016 budget process. We will bring a volunteer accounting intern on staff starting 7/13/15 to assist with various budget compilation tasks, research, spreadsheet work, account reconciliation, and other accounting work to assist with the department's workload. Items such as meeting summaries and preliminary budget drafts will be posted to 2016 Budget Central as they become available.

Activity or Project:

Independent Financial Audit - 2014

Description:

The status of the audit has not changed from last week's report. The 2014 independent audit is complete and the CAFR has been published. The lead auditors at CliftonLarsenAllen are preparing the bound versions of the CAFR along with the various transmittals that constitute the audit reporting. Aside from two IT-related recommendations, I am pleased to report that the internal control letter reports no material weaknesses and no deficiencies. Even the segregation of duties deficiency, which had been a mainstay on the City's internal control report due to limited staffing levels, was cleared from the deficiency list as a result of measures taken during 2013 to improve controls. Administration and Finance Department staff deserve the credit for modified roles in purchasing, payroll, billing and cashiering. The auditors will present their findings at the July 27, 2015 meeting of Council.

Department:

Parks and Recreation Department

Notable Notes:

Recreation Supervisor of Athletics confirmed the bus trips for the week for the summer camps. She also sent out information to camp participants on Rittenhouse Family Fun Day scheduled for August 1 and the first day letters for session III starting July 13.

Recreation Supervisor of Athletics continues to submit background check forms as they are received to the state for checks prior to camps being held. The results are slowly coming back.

Recreation Supervisor of Athletics checked Rittenhouse Camp throughout the week and helped with the transfer to the rain location due to inclement weather. She helped coordinate the change in rain location for July 3 to the Wilson Center since the schools were not open due to the holiday weekend.

Camps held at the George Wilson Center this week included Camp GWC and Before & After Care, and Bricks 4 Kidz Mining and Crafting. Camp GWC enjoyed a trip to Launch Trampoline Park on Wednesday.

The Recreation Supervisor of Community Events prepared for and held the 4th of July festivities, including the Fireworks and Liberty Day. She finalized the logistics for the event including the removal of the throwing cage nets, delivery of the lights, canopy, and portable toilets, coordinating with DeIDOT and NPD on traffic control needs, and working with UD on items related to their property. Approximately 30,000-35,000 people were in attendance in the area of the UD Athletic Complex for the Liberty Day activities and the Fireworks. DeIDOT, NPD and UDPD did an outstanding job controlling traffic and mitigating traffic away from the area following the event.

Camp R.E.A.L is going well at Dickey Park. The number of campers varies from day to day, but are still consistent at 15-25. There are 40 enrolled in camp. Last week was America Week. Games and activities centered around patriotism. We had to cancel on Thursday because of inclement weather and were very happy to have Mayor Sierer volunteer on Wednesday.

The Recreation Supervisor of Community Events has also been planning the schedule, activities and guests for the new SAFE KIDS CAMP, which is scheduled for the week of July 27-31. She has been scheduling guest speakers and working with the instructor to set the final schedule.

The Newark Community Garden Ribbon Cutting Ceremony held on Tuesday, June 30, 2015 was a great success! Community Garden Committee Members, Members of City Council, City Manager Carol Houck, Mayor Polly Sierer, Parks and Recreation Director, Recreation Superintendent, Parks Superintendent, Parks Supervisor, Recreation Specialist, Eagle Scout Alan Buckmaster's parents, Networks School Volunteer leaders and more were all in attendance for the event. The [Newark Post](#) reported perfectly "It's only just beginning to produce vegetables, but Newark's community garden has already lived up to its name, bringing together several individuals and groups for a common purpose."

The Recreation Supervisor and Recreation Specialist met with Eagle Scout Nic Krusko at Leroy C. Hill Park on Wednesday, July 1 to review the project. Visitor and Home Side Bullpens have been built, filled in with Diamond Tech dirt, and have had the necessary hardware installed (new home plates/pitching rubbers). The fences have been moved and new ones where necessary have been made behind the pitching mound and home plate areas. Between the pitching mounds and the fence, a 2-3 foot area of mulch has been added and boxed in to limit the chances of injury and provide additional space for the pitchers to extend

their arms. The mounds are fully functional and can be used during both games and practices. The scorers' table has also been sanded down and stained, the sides of the dugouts have been water sealed, wooden areas around home plate have been repainted, and mulch has been spread around various areas of the field. Attached are photos of the finished project.

Total volunteer hours for the week of June 29-July 4 are 375 Hours.

Parks staff continued cleaning up downed/damaged trees/shrubs throughout park system, loaded for Liberty Day event including working on the day of the event, continued mowing operations, dragged/scarified ball fields, sprayed round up as needed, and did equipment maintenance on mowing equipment.

Horticulture staff continued on bed maintenance, mulching, assisted with Liberty Day loading and clean up, sprayed round up as needed, and did interior bed maintenance as needed at City Hall.

Contractor completed work on the tennis courts at Phillips Park, and started working on courts at Handloff Park.

YBC crew did trash sweeps at City Hall and several park sites daily, did graffiti removal at Ground Round island, assisted with tree clean up at many sites, and assisted full-time staff at Community Garden site (weeding/grading/seeding), and did trail maintenance along the Hall Trail.

Activity or Project:

Phillips Park Tennis Court Resurfacing

Description:

The Phillips Park tennis courts resurfacing is completed. Handloff Park resurfacing begins this week.

Notable Notes:

Building Maintenance

- A television was hung in the Electric Department this week.
- This week a sink was replaced at the George Wilson Center.
- Quotes were received for replacing the double doors at the Rittenhouse Park maintenance building.
- Anaconda Fire Protection completed the installation of the fire alarm system at the train station this week.

Code Enforcement

- The Code Enforcement Division reports that the July 4th fireworks presentation was successful.
- Paving at the Newark Shopping Center should begin next week.

Community Development

- This week, Development Manager Mike Fortner completed the final Financial Draw for the 40th Year Community Development Block Grant (CDBG) Program. The 41st CDBG Fiscal Year started on July 1, 2015.

Parking

- Time was spent with Steve Pilnick, owner of 46 E. Main Street, and Andrew Valk, GGA, general contractor for 58 E. Main Street, to discuss construction of the expansion of Lot #2.

Planning

- On Wednesday, July 8th, Mike attended the GIS Working Group meeting.
- The Planning and Development Department completed:
 - 7 Deed Transfer Affidavits
 - 22 Building Permit Reviews
 - 2 Certificate of Occupancies

Activity or Project:

Planning Commission

Description:

At the July 7, 2015 Planning Commission meeting, the Commission took the following actions: o Recommended adoption of the proposal of Definitions of "Accessory Use" & "Neighborhood" in the Report of July 7, 2015 as presented by the Planning and Development Department for the City of Newark. o Did not recommend Council approval of the minor subdivision, special use permit plan and parking waiver for 70 E. Main Street. o Recommended Council approval of the rezoning and major subdivision of Pike Park (163, 171, 175, 179 S. Chapel Street and 52 Benny Street).

Department:

Police Department

Notable Notes:

The Fourth of July weekend was very busy for our officers. Patrol officers made four driving under the influence of alcohol arrests the evening of the 4th and into the 5th. Officers have been concentrating on DUI enforcement in response to some of the serious accidents we have experienced due to driving under

the influence. As of July 4th, 2015, officers have made twenty (20) more DUI arrests compared to the same time period in 2014.

At approximately 5:00 a.m., on July 5th, officers investigated the death of a 20-year-old male on East Park Place. The male had been socializing with friends for the holiday, and fell off a back deck striking his head. Emergency service personnel responded and transported the victim to Christiana Hospital where he was pronounced deceased. No foul play is suspected.

The Liberty Day fireworks event went well. The medians were kept clear of vehicles and, as a result, no pedestrian or motor vehicle accidents occurred. The event ended shortly before 10:00 p.m. and the downtown area was cleared by 11:00 p.m.

Deputy Chief Feeney has been organizing a "Mass Casualty Recovery" tabletop exercise. The Olson Group will be facilitating the exercise, with participation from the University of Delaware, DEMA, AETNA, as well as other organizations.

Department:

Public Works and Water Resources Department

Notable Notes:

There was a very timely [Newark Post](#) "Out of the Past" article this week that states the 4" water main in Prospect Avenue was first requested in 1908, that means in all likelihood this main is nearly 106 years old!

Our street program contractor has completed the paving work at the Fairfield Park community garden, and we are pleased with their performance and willingness to fast-track the work to meet the grand opening deadline.

Our mechanics have installed the City's first rubber snow plow cutting edge which we are going to pilot on one truck this coming winter. We currently use steel cutting edges which require the use of wheels to keep the blade up off of the pavement. The rubber edges will allow us to ride the blade directly on the asphalt which we expect will result in better bare pavement clearing. Additionally, the steel edges have the tendency to break valve boxes and chip curbs where the rubber edges should be more forgiving.

Activity or Project:

2015 Water Main Replacement

Description:

We held the pre-construction meeting with the contractor and work is scheduled to begin on this coming Monday, July 13th. The contractor will mobilize on Monday and mill out the area where the proposed main will be installed on Prospect, North, and Wilbur Streets. Pipe installation is scheduled to begin on Tuesday the 14th. On-street parking will be restricted on each street while work is completed to allow for construction crews and equipment. Access will be maintained to off-street parking areas with the exception of when crews are working directly in front of the driveways. All work on North, Prospect, and Wilbur Streets is to be completed by August 15th. At that time the contractor will move to Darwin Drive and Courtney Streets.

Activity or Project:

Arbour Park Booster Station

Description:

All underground piping work is scheduled to be complete by the end of this week. The package booster station has been delivered and inspected by myself and our engineering firm for compliance with the contract documents. This is the same type of package system as what was installed on Delrem Drive at the entrance to West Branch, and we suggested several design improvements to the manufacturer now that we have had time to use the system. Fortunately, they chose to incorporate all of our suggested improvements, and we are very pleased with their responsiveness to suggestions.

7/5/2015 to 7/11/2015

ORDINANCE NO. _____

**ORDINANCE REGULATING THE POSSESSION OF FIREARMS,
AMMUNITION, COMPONENTS OF FIREARMS, AND EXPLOSIVES IN
MUNICIPAL BUILDINGS AND POLICE STATIONS IN THE
CITY/TOWN OF _____.**

WHEREAS, by and through adoption of House Bill 192 by the 148th General Assembly of the State of Delaware (“HB192”), codified at Title 22, Section 111 of the Delaware Code, municipalities are permitted to adopt Ordinances regulating the possession of firearms, ammunition, components of firearms, or explosives in municipal buildings and police stations.

WHEREAS, The Mayor and City/Town Council desire to add a new Section 1.1 of the City/Town Code to prohibit possession of firearms, ammunition, components of firearms, or explosives in municipal buildings and police stations to the fullest extent permitted by HB 192;

WHEREAS, The City/Town of _____ has introduced this Ordinance in accordance with procedures established by law.

NOW THEREFORE, IT IS HEREBY ORDAINED, by the City/Town of _____, that the following Code changes and revisions are adopted:

Section 1. Amend/Add Section 1.1 of the City/Town Code to add the following language:

Section 1.1 - Possession Of Firearms, Ammunition, Components Of Firearms, Or Explosives In Municipal Buildings And Police Stations Prohibited.

(a) Prohibition. Except as set forth in section (e) below, possession of firearms, ammunition, components of firearms, or explosives in municipal buildings and police stations is prohibited in all municipal buildings and police stations.

(b) Municipal Building Defined. For purposes of this section, “municipal buildings” are defined as any building where the City/Town meets in its official capacity, or any building containing the offices of elected officials and of public employees actively engaged in performing governmental business, but excludes any

parking facility. The definition of “municipal building” also includes any non-City/Town owned or leased building where the City/Town is meeting in or occupying such a building, but only during the time that the City/Town is meeting in or occupying such a building.

- (c) Required Signs. In all municipal buildings and police stations, a conspicuous sign shall be posted at each entrance stating that the possession of firearms, ammunition, components of firearms, or explosives are prohibited. Such sign may but is not required to also state that persons in violation may be denied entrance to the building or be ordered to leave the building.
- (d) Immediate Departure. Any person who immediately foregoes entry or immediately exits any municipal building or police station due to the possession of a firearm, ammunition, components of firearms, or explosives shall not be guilty of violating this section.
- (e) Exemptions. Nothing in this section 1.1 shall be deemed to prevent the following in municipal buildings or police stations:
 - (1) Possession of firearms, components of firearms, and ammunition or explosives by law enforcement officers;
 - (2) Law enforcement agencies receiving shipments or delivery of firearms, components of firearms, ammunition, or explosives;
 - (3) Law enforcement agencies conducting firearms safety and training programs;
 - (4) Law enforcement agencies conducting firearm or ammunition public safety programs, donation, amnesty, or any other similar programs in police stations or municipal buildings;
 - (5) Compliance by persons subject to protection from abuse court orders;

- (6) Carrying firearms and ammunition by persons who hold a valid license pursuant to either §1441 or §1441A of Title 11 of the Delaware Code so long as the firearm remains concealed except for inadvertent display or for self defense or defense of others;
 - (7) Carrying firearms and ammunition by officers or employees of the United States duly authorized to carry a concealed firearm; or
 - (8) Carrying firearms and ammunition by agents, messengers and other employees of common carriers, banks, or business firms, whose duties require them to protect moneys, valuables and other property and are engaged in the lawful execution of such duties.
- (f) Penalties. As necessary to protect public safety, any intentional violation of this **section 1.1** by any person shall be subject to a fine of at least _____ and not to exceed _____, or by imprisonment for not more than _____, or by both fine and imprisonment.

Section 2. Severability. The provisions of this Ordinance shall be severable. If any provisions of this Ordinance are found by any court of competent jurisdiction to be unconstitutional or void, the remaining provisions of this Ordinance shall remain valid, unless the court finds that the valid provisions of this Ordinance are so essentially and inseparably connected with, and so dependent upon, the unconstitutional or void provision that it cannot be presumed that **City/Town Council** would have enacted the remaining valid provisions without the unconstitutional or void provision; or unless the court finds that the remaining valid provisions, standing alone, are incomplete and incapable of being executed in accordance with **City/Town Council's** intent. To the extent that this Ordinance is deemed to exceed the statutory authorization provided by HB 192, the **City/Town Council's** intent is to implement the provisions of HB 192 to the fullest extent permitted, and the Ordinance should be interpreted so that any invalid provision is limited only to the maximum authorization permitted by HB 192.

Section 3. No Repeal Of Existing Firearms Related Ordinances. Adoption of this Ordinance shall in no way repeal or alter any law, ordinance or regulation prohibiting, restricting or licensing the ownership, transfer, possession or

transportation of firearms or ammunition enacted before July 4, 1985. To the extent that this Ordinance conflicts with any similar ordinance prohibiting, restricting or licensing the ownership, transfer, possession or transportation of firearms or ammunition enacted before July 4, 1985, the more stringent of the two ordinances shall govern.

Section 4. Effective Date. This Ordinance shall become effective immediately upon its adoption by **City/Town Council.**

Committed to Service Excellence

CITY MANAGER'S OFFICE

CITY OF NEWARK

220 South Main Street • Newark, Delaware 19711

(302) 366-7000 • Fax (302) 366-7035 • www.cityofnewarkde.us

Ms. Eunices Simon-Alexander
Project Manager
Trinity Group Construction, Inc.
13849 Park Center Road, Suite A
Herndon, VA 20171

Via Email

Dear Ms. Simon-Alexander:

Re: Night Work in the Newark Shopping Center

As requested, I will authorize an extension of the 9 p.m. stop time normally enforced on weekdays and weekends for our City Noise Ordinance regulations. The location of this work is in the Newark Shopping Center.

Specifically, you have approval subject to the following conditions:

1. The purpose of the extended work is to pave the entire parking lot, roadways, and fire lanes in front and behind Buildings A-D, and F.
2. Work will start on Monday, July 13, 2015 and end on Wednesday, August 5, 2015, weather permitting. Work will begin at 9:00 p.m. and end at 5:00 a.m.
3. No traffic lanes will be affected by this work.
4. If we receive any complaints related to noise on this project during the extended hours, the Police Department will still respond according to our City Code.

Ms. Eunices Simon-Alexander
Page 2
July 9, 2015

5. If any other changes, such as an unexpected road closure, are necessary as a result of this work, you should immediately contact the Newark Police Department and the Aetna Hose, Hook & Ladder Company so as to alert the appropriate public safety agencies. State and city highway traffic controls will be used during any lane shut down.

Please note this represents a temporary waiver to the City Noise Ordinance. By copy of this letter, I am notifying the Police Department and Fire Board of your planned operations. Remember that any further variations from the above conditions must be approved by the City Manager.

Do not hesitate to contact me if you have any additional questions.

Sincerely,

Carol S. Houck
City Manager

CSH/mp
