Our goal is to support the participation of everyone in this meetin Katie Dinsmore the department's Administrative Professional will be managing the chat and general meeting logistics. In accordance with the governor's declaration on remote meetings, everyone needs to identify themselves prior to speaking. At the beginning of each agenda item will call on the related staff member or applicant to present first, once the presentation is complete, I will call on each commissioner in rotating alphabetical order for questions for the presenters. If a commissioner has additional questions, they would like to add afterword's they can umute themselves and I will call on them to make it clear who is speaking next. Otherwise please keep yourself muted to prevent background noise and echo. Please also try to avoid talking over other people so that everyone listening in can hear clearly and also so that the minutes can be done easily. For items open for public comment we will then read into the reco comments received prior to the meeting followed by open public comment. If members of the public would like to comment on an agenda item tonight, they should send a message through the chat function to Ms. Dinsmore with their name, district, or address and which agenda item	21	Commissioners Pro	sent:

the top bar. For those attendees connected to the meeting only through their phone, I will call on you separately and you can press \*6 to unmute yourself. I will follow public comment with further questions and discussion from the commissioners and then the motions and voting by roll call. The commissioners will need to articulate the reasons for their vote. If there are any issues during the meeting, we may adjust these guidelines if necessary. Beginning with item 1, Chair's

63 remarks.

64 65

## 1. Chair's remarks (Information) (3 minutes)

- 66 Chair Hurd: Just a reminder that item 3, the annexation of the parcel at Otts Chapel and Elkton
- Road has been withdrawn by the applicant, is that correct? (inaudible) Also the supporting
- documents for item 5, or the correct documents for item 5 were posted today and linked to the
- agenda. Alright, going to item 2, minutes.

## 70 2. The minutes of the October 20th, 2020, Planning Commission meeting and May 4th,

- 71 **2021, Planning Commission meeting. (Action) (2 minutes)**
- 72 Chair Hurd: We have the minutes from the October 20<sup>th</sup>, 2020, CIP meeting and the May 4<sup>th</sup>
- 73 meeting from last month. Commissioner Silverman and I have submitted corrections to the
- department. Are there any comments or corrections to the minutes from other commissioners?
- Alright, seeing none, the minutes are approved as ammended by acclimation. I keep forgetting
- the gavel, don't know how I can forget that. Alright, that takes us to Item 4.
- 77 3. Review and consideration of Otts Chapel Road and Elkton Road Annexation (Parcel
- 78 #11-004.00-013) (Action) (45 minutes) (Withdrawn)
- 4. Review and consideration of a Special Use Permit for a Cell Tower/Antenna at the
- property located at 200 Whitechapel Drive (City of Newark owned parcel # 18-027.00-017)
- 81 (Action) (15 minutes)
- 82 Chair Hurd: Review and consideration of a Special Use Permit for a Cell Tower/Antenna at the
- property located at 200 Whitechapel Drive.
- Mr. Forter: Hello, this is Michael Fortner, Planner. I'm here to present a special use permit for an
- accessory use with impact. Excuse me for a tower broadcasting telecommunications tower at 200
- White Chapel Drive. As you know, some (inaudible) we have an accessory use as divided into
- 87 two categories. Accessory use with no impact like a shed, something that's very common that
- doesn't cause any type of disturbance, and then we have an accessory use with impact; one of the
- 89 criteria for accessory use with impact is that it's taller than the primary structure. And this also
- 90 being a telecommunication tower it fell under the category of accessory use with impact. A cell
- 91 tower wouldn't normally, as a standalone, would not be allowed in RR zoning this is an
- accessory use to the 200 Whitechapel which is the Newark Senior Center, so it's on their
- property, so it's an accessory use to the senior center. It's a 43-foot-high pole, it's also acts as a
- light pole, but it will also have a coffee can sized structure at the top that will help with
- 95 telecommunications, 5G telecommunications signal. For a special use permit the criteria is on
- page two of your report for special use permit it can't adversely affect persons residing in the
- 97 city, can't be detrimental to public welfare, injurious to property or improvements within the city
- and it can't be in conflict with the Comprehensive Development Plan. On page 3 of the
- 99 departmental reports, which are just standard for this type of use, the applicant has already
- 100 complied with all or will comply with all of these and it is a recommendation of the Planning
- Department because the proposed special use permit will not conflict with the purposes of the
- 102 Comprehensive Development Plan 5 because the proposed use with departmental comments will
- not be injurious to property or improvements in the surrounding area, and because the use will
- meet all special use and zoning requirements, the Planning and Development department suggest
- that the Planning Commission recommend the approval of 200 White Chapel Drive special use
- permit for an accessory use with impact to install a small cell telecommunications facility at the
- city owned property (audible) at 200 White Chapel Drive with departmental conditions in the Planning and Development report dated May 25, 2021. It's one thing, the property is owned by
- the City of Newark, and it's leased to the Newark Senior Center for that use. As you can see on
- your screen the image of the location. If you go to Item B, the last page in your reports, you'll
- see a rendering of, ah there it is right there; that's what's there now. If you go and flip to the next

- image, you see what that's what it'll look like, so it's a lamppost with some extra height for the 112
- 113 telecommunications tower. And the representative from the Cell tower is here, Jonathan and I'll
- turn this over to him and he can answer any of your questions. But Jonathan, go ahead. 114
- Jonathan: Good Evening, that was a great summary, that actually stole a lot of the thunder of 115
- what I was planning to say. With me tonight are three witnesses, I don't have any prepared 116
- testimony from them so much as they're just here to answer any questions that the Planning 117
- Commission may have. With me is Andrew Peterson, who is a radio frequency engineer, Ali 118
- 119 Shahid who is a civil engineer, and Bob Altenbach, who is a site acquisitions consultant for
- 120 AT&T. So, I just want to very quickly summarize the main points and then open the floor to
- questions. As Mr. Fortner said, we're required to obtain a special use permit and we're proposing 121
- to take an existing 25-foot light pole and replace it with a virtually identical pole that will be 43 122
- 123 feet tall with a 3-foot-tall canister antenna on top to improve the cell service in the area. As I'm
- 124 sure that everyone is aware, the demands on the cellular networks have been exploding at 50
- percent compounding annual rates for the last 10 15 years. And at this point more than half of 125
- households do not have a landline so those households rely on their cell coverage. Also, nearly 126
- 80 percent of all 911 calls are made from cell phones so again the necessity for reliable service 127
- just can't be overstated and we should know that the altruistic way of improving the way of 128
- service the area. Basically, these small cells help to offload traffic from the larger cells when 129
- they get overloaded which allows them to continue to do their job and we can sort of fill in 130
- 131 certain areas with these smaller poles that have less of a visual impact on the surrounding areas.
- And there are a number of small cell sites around Newark and other parts of New Castle County. 132
- These poles will comply with all applicable FCC and FFA and other Federal Requirements. 133
- There's a report in the record, it's exhibit A7 from Andrew Peterson, who is here tonight; where 134
- he talks about the emissions, the electromagnetic emissions from the antenna and he says that 135
- using the upper (audible) assumptions, the cumulative radio frequency exposure levels would be 136
- 137 less than 2.3 percent of the applicable FCC standard at all locations of ground level public
- access. So that's important; you saw the photo simulations, they do not have a visual impact on 138
- the community, and they do not generate noise, traffic, odor, or any demand on public services 139
- such as sewer, water, and schools. So basically, we are here tonight saying that the proposed 140
- facility doesn't have an adverse impact on the community, in fact it has a positive benefit 141
- because of the safety issues related to cell tower, cell service and coverage. And you know with 142
- that I can turn the floor over to any questions that the Planning Commission might have. 143
- Chair Hurd: Alright, thank you so much. We will begin with Commissioner Kadar. 144
- Commissioner Kadar: Yeah, I must say that this is a very straightforward request. Extremely 145
- localized in nature and doesn't seem to infringe on anybody outside the local community. And 146
- since the local community is the one that has requested this tower to begin with, I have no 147
- serious issues with it, and I intend to vote for it. 148
- Chair Hurd: Alright thank you. Is Commissioner McNatt attending? I thought she was the caller. 149
- No? Ok, Commissioner Silverman? 150
- Commissioner Silverman: I echo the previous remarks also I support this proposal for all the 151
- reasons stated in the department's report issued May 25<sup>th</sup>, and just one minor adjustment. With 152
- respect to the drawing packet, we have sheet 01 of 16, there's a reference to site information on 153
- the right-hand side in the data column, and it refers to a proposed light pole. The structure that is 154
- being erected here is a little more than just a light pole and perhaps the wording "proposed light 155
- pole" could be deleted and the wording "small cell communication facility" be inserted there. 156
- Just to make sure that all the ideas are consistent throughout the documents. And that's all of my 157
- comments. 158
- Chair Hurd: Alright, thank you. Commissioner Stine? Oh dear, you can try calling in. Ok, we 159
- will skip and come back if you need us to. Commissioner Wallace? 160
- Commissioner Wallace: I think, I unmuted on my phone, but I didn't unmute on the computer, so 161
- you didn't hear me until now? 162
- Chair Hurd: We're hearing you now, yes. 163

- 164 Commissioner Wallace: Ok, alright. Sorry I'm hopefully Allison is feeling better, she's not the
- only one experiencing technical difficulties. So, my only question is from the memo under the
- electric department comments item C it says that we should "ensure that the senior center and the
- applicant understands future maintenance such as painting the pole, it's the owner's
- responsibility, the city will not be responsible for any maintenance" And looking at the letter
- from the senior center there's no discussion about maintenance and you know agreement there.
- So, I wondered is there someone that who could speak to whether the senior center understands
- their responsibility with this change in pole?
- Jonathan: This is John speaking, I'm sure that's going to be covered in the lease that we
- negotiate with them, and I, Bob is here, I understand that typically the owner of the tower or it's
- nor really in this case a tower, it's a pole but, typically the owner of the pole is responsible for
- the maintenance of it, and that would be my assumption. Bob, do you know any different than I
- 176 do?
- Mr. Altenbach: You're correct John, this is Bob Altenbach. I'm with the real estate component
- of AT&T and I actually negotiated the lease with the senior center and yes, in the lease it states
- that AT&T takes all responsibility for maintenance of that pole.
- 180 Commissioner Wallace: Ok, that answers my question, thank you.
- 181 Mr. Altenbach: You're welcome.
- 182 Chair Hurd: Ok, Commissioner Wampler?
- 183 Commissioner Wampler: Yeah, I just have one question, I was looking at the diagrams provided,
- and I might have missed it, but I didn't see a dimension for the diameter of the pole. Can
- anybody tell me what the diameter is?
- 186 Chair Hurd: Bob, you need to unmute.
- Mr. Altenbach: Yes, I can't say specifically what the diameter is, I'm not the engineer that
- prepared the drawing, but generally speaking-
- Mr. Shahid: Yeah, I think I can get that. It's not a round, it's not a sphere it's actually it's not a
- circular section it's a tube. It's an 8 by 8 tube section and at the top of that is another (audible)
- which is a 3.5-inch diameter pipe. So, if that answers your question.
- 192 Chair Hurd: Alright, and Mr. Shahid could you identify yourself and spell your last name for the
- record please?
- Mr. Shahid: My name is Ali, first name A-L-I last name Shahid, S-H-A-H-I-D and I'm a
- 195 professional engineer.
- 196 Chair Hurd: Alright, thank you very much. Does that help Commissioner Wampler?
- 197 Commissioner Wampler: I think so, I'm trying to get an idea in my head of how thick the pole is.
- 198 I know it's supposed to be the same as the existing pole but relative to a standard telephone pole,
- is this bigger? Smaller?
- 200 Mr. Shahid: If you want to get more of an idea, it would be more like an 8-inch round pole.
- 201 Commissioner Wampler: Ok, that's what I was looking for.
- 202 Mr. Shahid: Yeah.
- 203 Commissioner Wampler: My point is, I live on Park Place we have telephone poles and I'm
- guessing they're 30 feet or so and if someone put another 10 feet on top of it with any type of, I
- don't think anyone would even notice. I think this is fine, I'm in favor of it. I think the fact that
- it's taller I think most people walking or driving up and down the street won't even notice the
- additional height, so I think it's a good solution.
- Jonthan: And just to add onto that, we do have an exhibit in the exhibit binder, exhibit A8 which
- is a structural engineering report, and we designed the foundation to hold the pole, and we
- designed the pole to withstand any kind of wind it's probably designed much better than what's
- already there.

- 212 Commissioner Wampler: Ok, that's my only question, thank you.
- 213 Chair Hurd: Alright, Commissioner Stine, did you have anything you wanted to add?
- Commissioner Stine: I do thank you, sorry my computer froze. So, a couple of things, the
- electric department made a couple of comments about this pole, they had some issues. One of
- 216 them being the future maintenance of the pole which I think you've addressed. For whatever
- reason they're recommending that the that this new pole be separate from the existing light pole.
- And then in the March 31st memo from Allison (audible) the attorney for the applicant, it says
- 219 that no signs or lights will be mounted on the pole. But this is replacing a light post is it not?
- Jonahtan: Yeah, that letter is referring to the type of lights that they put on top of a cell tower for
- 221 airplanes and that's what she was referring to. I acknowledge to you that it was confusing and so
- just clear up the record. We have the lights shown on the plan, but we would not be putting the
- red light on the top of the tower because it's not tall enough to affect any type of aircraft.
- Commissioner Stine: Ok so it will have a light post at approximately the same height as what it's
- replacing?
- Jonathan: Yes, and that's typical, we do that thousands of times over trying to replace structures
- that are already there it has less of an impact on everybody.
- Commissioner Stine: Yeah, I'm aware, I've been dealing with this issue with another group for a
- long time. I'm become quite the expert in this. The Raycap pole that (inaudible) recommends,
- what's the issue with that? Why can't you take that recommendation?
- Jonathan: I don't know that they won't take that recommendation. Bob are you aware or Ali?
- 232 Mr. Shahid: No, I'm not aware of that.
- 233 Mr. Altenbach: Yeah, I do know that if the city recommends if it's a specific pole then AT&T
- 234 (inaudible) will use that pole. Raycap is a manufacture that AT&T typically uses. In fact,
- 235 they're using that manufacturer in some of the city metal poles that are being replaced on East
- 236 Main Street. So, what we did there.
- Commissioner Stine: Is it a better-looking pole than what you're proposing here, is that why they
- 238 like that?
- 239 Mr. Altenbach: I'm sorry what's your question Mrs. Stine?
- 240 Commissioner Stine: Is it a better-looking pole? The Raycap pole?
- Mr. Altenbach: I mean everyone has their own idea of what looks good and what doesn't look
- good. I mean the Raycap pole is a standard type of light pole in the industry and again the pole
- 243 we're replacing at the senior center is an existing metal light pole and we're replacing it in the
- same spot, so it looks pretty similar to what's already there. I can't imagine that a resident would
- 245 drive by and say, "ugh that looks like a different type of metal there" So I would say yes, Raycap
- is a standard type of pole for this installation.
- 247 Commissioner Stine: The specific comment from the electric department was that it ensures all
- the equipment is concealed in a Raycap pole, is that where the equipment is on the inside of the
- pole versus in that box mounted on the inside?
- Mr. Altenbach: I can say generally speaking yes, but Mr. Shahid can speak more to the (audible)
- but yes generally speaking typically in light pole installations, we tend to conceal the electronics
- inside of the pole itself and not need to place a separate equipment shroud outside of the pole.
- 253 Mr. Shahid: That is correct, yes.
- Mr. Altenbach: Again, in my dealings with the city, in the 8 recent locations we did utilizing the
- 255 city electric department's wood pole and metal poles. All the wood pole locations the city
- approved, allowing us to attach our boxes outside of the wood poles and on the two metal
- locations along East Main Street we are concealing the equipment inside the pole using a Raycap
- design similar to the design we intend to use here at the senior center.

- 259 Commissioner Stine: Yeah, I guess, would you share this space with other telecommunication
- 260 companies? Are they going to come along and attach the pole next to it? I mean one is great but
- when you have three, four, five on the same corner it starts to look yucky.
- Mr. Altenbach: Yeah, well generally speaking in my experience, we're increasing the pole with a
- pole that will be structurally suitable for just AT&T equipment. Would a competitor or another
- 264 future wireless provider want to be in this general area, they would more likely approach the
- senior center and ask if they could swap another light pole to place their equipment at. We do
- 266 not have an exclusive license with the senior center for their whole property, just this one
- particular light pole.
- 268 Commissioner Stine: Are you familiar with the telecommunications tower on Cleveland
- Avenue? I think between the (inaudible) and the Chevy dealership, it's really big. Is that what's
- 270 going to happen, when all of the companies come along, just getting bigger and bigger?
- 271 Mr. Altenbach: Well, that's what they call a macro site and those type of sites are usually
- designed to hold one or more carriers just for the purpose is not (inaudible) antenna sites
- throughout a municipality again this AT&T application is for just for what we call a small cell
- antenna application and it's already designed to one antenna, one carrier solution.
- 275 Commissioner Stine: Ok, I was afraid it was going to turn into something like that because it is
- still a residential area.
- 277 Mr. Altenbach: Yeah, and as I said this pole would not be available for colocation.
- 278 Commissioner Stine: Alright thank you.
- 279 Chair Hurd: Alright, I think that's everyone. Katie or Director Gray, do we have any public
- comments submitted prior to the meeting? I'm not hearing you Director Gray. You're
- 281 microphones lit up but I'm not hearing you. Ok, thank you. I will open the floor to public
- comment. Ms. Dinsmore, have we received any chat requests for comment?
- 283 Ms. Dinsmore: At this time, no.
- 284 Chair Hurd: Ok, so the floor is open to anyone that would like to comment on this agenda item.
- Alright, seeing none, closing public comment and bringing it back to the dais. I think we seemed
- to cover everything. So, if there's any commissioners who have anything, final comments or
- items, please you can unmute yourself, I'm not going to go through the whole list again.
- Otherwise, I will ask Secretary Wampler to form the motion.
- 289 Commissioner Wampler: Thank you. I move that the Planning Commission recommend
- approval for the 200 Whitechapel Drive Special use permit for an accessory use with
- impact to install a small cell telecommunications facility at the city owned portion of the
- 292 property at 200 Whitechapel drive with the departmental conditions stated in the Planning
- and Development report dated May 25th, 2021.
- 294 Chair Hurd: Thank you, do I have a second?
- 295 Commissioner Kadar: I'll second it, this is Commissioner Kadar
- 296 Chair Hurd: Thank you Commissioner Kadar. Any discussion on the motion.
- 297 Solicitor Bilodeau: This is the solicitor, just for clarification, the departmental conditions that are
- refereed to in the motion, those would be number 1 and 2 on page 3 of the report?
- 299 Chair Hurd: Yes
- 300 Solicitor Bilodeau: I just want to make sure that we're referring to the to 1 and 2, that's all, just
- wanted to make sure that was clear.
- 302 Chair Hurd: Thank you, any discussion on the motion? Alright please keep in mind that for a
- special use permit we do need to articulate our reasons for a vote and the criteria that we're using
- are articulated on page 2, they're the standard ones for special use permits and we can use those.
- 305 Or we can use the recommendation from the report which does summarize those conditions.

- 306 Alright, is Commissioner McNatt with us yet? Doesn't seem to be, alright Commissioner
- 307 Silverman?
- 308 Commissioner Silverman: I vote for this proposal for the reasons that's stated in the department's
- 309 report of May 25<sup>th</sup>.
- 310 Chair Hurd: Thank you, Commissioner Stine?
- 311 Commissioner Stine: I vote aye based on the May 25<sup>th</sup> report from the Director of Planning and
- 312 Development Department.
- 313 Chair Hurd: Thank you, Commissioner Wallace?
- 314 Commissioner Wallace: I vote aye for reasons previously stated.
- 315 Chair Hurd: Thank you. Commissioner Wampler?
- 316 Commissioner Wampler: I vote yes for the previously stated reasons and also the fact that I think
- 317 it would be almost unintrusive and provide a service that people are asking for.
- 318 Chair Hurd: Thank you. Commissioner Kadar? Commissioner Kadar?
- Commissioner Kadar: I vote aye for the reasons specified in the May 25<sup>th</sup>, 2021, Planning
- 320 Commission note and because the original request for the special use permit was requested by
- 321 the local community and does not infringe on the surrounding area, it is a highly localized
- 322 project.
- Chair Hurd: Alright, and I vote yes as well for all the reasons stated previously. Alright, motion
- 324 carries. Thank you, gentleman.
- 325 Mr. Shahid: Thank you.
- 326 Mr. Altenbach: Thank you.
- 327 Jonathan: Thank you.
- Chair Hurd: Alright that takes us, flipping over the page, to item 5. Review and consideration of
- amendments to Chapter 32 Section 32-45 (b) BB central business district off-street parking
- option, subsections 5,6, and 8.
- 5. Review and consideration of amendments to Chapter 32 Section 32-45 (b) BB central
- business district off-street parking option, subsections 5,6, and 8. (Action) (20 minutes)
- Chair Hurd: Director Gray, who is leading up on this?
- Director Gray: That would be me. Can you hear me now?
- 335 Chair Hurd: Ok.
- Director Gray: Good Evening everyone, so this is for the motion of the May 4<sup>th</sup>, 2021, Planning
- Commission Meeting the proposed revisions to Chapter 32 Section 32-45 off street parking
- requirements section B for BB Central business district off street parking subsections 5,6, and 8
- be returned to staff for rewording based on the discussion at the May 4<sup>th</sup> Planning Commission
- meeting. Staff worked with Solicitor Bilodeau to revise the proposed language and make the
- language less ambiguous and clearer. So, Katie if you could pull up Exhibit A, title revision
- May 25<sup>th</sup>, 2021? Fabulous, thank you. So, per review staff is proposing these revisions as
- indicated in underline it's a little messy but I wanted to include the language that was proposed
- at the May meetings so we could kind of have a touch point there, what was discussed there and
- the proposed language. So that concludes my brief presentation. Thank you, Chairman Hurd.
- Chair Hurd: Ok, so I will just note I think from discussion with Solicitor Bilodeau and Planner
- Fruehstorfer, line 40 should read "council shall include as part of the reconsideration motion" as
- opposed to saying "a". Oh, and I think another thing that you had sent a note about Director
- 349 Gray was line 30, that conditions should be struck out as well, correct?
- 350 Director Gray: Correct.

- Chair Hurd: Yeah, ok. So those are the two just catching things up. Alright, Commissioner
- 352 Silverman?
- Commissioner Silverman: I have no additional comments with respect to this item and support it
- as rewritten and presented tonight with the corrections that you just commented on.
- 355 Chair Hurd: Alright, thank you, Commissioner Stine?
- Commissioner Stine: I think they've done a great job in clarifying the intention especially in
- paragraph 8, so thank you for that I have no further questions.
- 358 Chair Hurd: Ok. Commissioner Wallace?
- 359 Commissioner Wallace: I have no additional questions, I agree, I think this is much clearer
- language, I still do retain some discomfort with starting on line 47, making this language
- retroactive. And that's all I have thank you.
- 362 Chair Hurd: Ok, thank you. Commissioner Wampler?
- Commissioner Wampler: I'm fine with, I think the language is an improvement, I'm pleased with
- that. The motion that I made, says "as described in the April 26<sup>th</sup> memo" but this, (inaudible) is
- as presented on June 1<sup>st</sup>, is that correct? So, we should strike the April 26<sup>th</sup> reference?
- 366 Chair Hurd: Which?
- Commissioner Wampler: So, in our original packet we were going to be voting on these as
- described in Exhibit A as described in the April 26<sup>th</sup> memo, but it's changed now. So, we want
- to strike that, and we want to see as "presented to the Planning Commission June 1".
- 370 Chair Hurd: So, the memo and exhibit that came in the packet were last months. Director Gray
- had emailed the memo for this month, which is dated May 25<sup>th</sup>, 2021, and the revised exhibit
- which is also dated May 25<sup>th</sup>, 2021. Did you get that file?
- Commissioner Wampler: I did not get that file, that's why I'm asking. But the one that's on the
- screen now, the language we're talking about, the date on that is May 25?
- 375 Chair Hurd: Yes.
- 376 Commissioner Wampler: Ok.
- Chair Hurd: Katie, if you could bring up the memo when it comes time for the motion and show
- 378 the bottom of it so Secretary Wampler can read it, that would be awesome. Did you have any
- 379 comments?
- Commissioner Wampler: No, just other than that, I didn't want to move that we approve the
- wrong wording.
- 382 Chair Hurd: Right. No, I agree.
- 383 Commissioner Wampler: I still can't see the...
- Chair Hurd: There's a there's a if you hover on the right side of your screen there's a plus minus
- 385 zoom option.
- Commissioner Kadar: Tom, if it's cut off for you left click on the screen and drag it upward.
- Chair Hurd; Oh! Oh, my goodness, I didn't know you could do that!
- 388 Commissioner Wampler: I still can't see the actual heading of it.
- Commissioner Kadar: Yeah, the heading is cut off by the top, there we go.
- Commissioner Wampler: There we go thank you, now I've got it ok. And the wording that we
- 391 have now is not described as Exhibit A but just as a revision, right?
- 392 Chair Hurd: It's described as Exhibit A revised 2021
- 393 Commissioner Wampler: Ok, good I've got it. Thanks.
- 394 Chair Hurd: Ok, Commissioner Kadar?

- Commissioner Kadar: Yeah, like Tom I didn't get this memo, so I haven't seen this new rewrite
- yet so I'm just dealing with the old one. And there were several questions that I had on the old
- one, but they appear to be all addressed in this new edition. Can I see the bottom of this? Can
- we go down a little further? I'm trying to left click and there we go. Yeah, it's very much
- 399 cleaned up. I have no questions and it looks fine.
- 400 Chair Hurd: Ok. I don't believe that Commissioner McNatt has joined us? Ok, she has not. Ok,
- 401 sorry it's my turn. I will agree, I like the revisions I think that the language is much clearer, and
- I like that it's kind of laid out the path that the applicant would go through in section 8 there. I
- 403 guess my question about the 2-year lookback, was that because the original code imposed the 2-
- 404 year moratorium and you're trying to capture theoretically anyone that is caught in that 2-year
- 405 window? Solicitor Bilodeau?
- 406 Solicitor Bilodeau: That is correct. Since I've been here, we hadn't really had parking waivers
- even voted upon in a long time. And so, when we had this one come up, the facts were it seemed
- 408 that it should just capture this particular instance, the one that was denied.
- Chair Hurd: Well certainly we can capture that, I'm just saying that it seemed to me being in
- picked as the lookback time lines up with the two years you'd be barred from reapplying. Say if
- someone actually had been voted down on appeal 2 years ago. So that, ok. Alright, that takes us
- 412 to public comment. Director Gray or Ms. Dinsmore have we received any public comment on
- 413 this item?
- Director Gray: This is Director Gray; we have not received any public comments on this item
- other than the comment from Dr. Morgan regarding the typo on the previous (audible)
- Chair Hurd: Yeah, I caught that as well, I looked back and realized oh wait, he was looking at the
- old one. We had caught that one. Is there anyone from the public that would like to speak? And
- Caller 3 if you are a public person, you can press \*6 to unmute. Alright public comment is
- 419 closed. Bringing it back. I think again we've covered this, there's not too much to talk about.
- So, barring any commissioner's need to say anything last minute, Commissioner Silverman did
- 421 you want to comment or were you just unmuted.
- 422 Commissioner Silverman: I'm just unmuted.
- Chair Hurd: Ok, that's fine. That's just my cue. Secretary Wampler can we have the motion
- 424 please?
- 425 Commissioner Wampler: Sure, I move that the Planning Commission recommend that City
- 426 Council approve the revision to Chapter 32 Section 32-45 off street parking requirements
- Section (b) BB central business district off-street parking option, subsections 5,6, and 8 as
- described in Exhibit A revised in the May 25<sup>th</sup>, 2021, memo to the Planning Commission.
- 429 Chair Hurd: Thank you. Do I have a second?
- Commissioner Silverman: Question, before we do a second, it's not revised in the May 25<sup>th</sup> it's
- revised as of I believe the June 1<sup>st</sup> memorandum? Didn't we just discuss that, what we just saw
- on the screen?
- Chair Hurd: So that, Exhibit A is dated May 25<sup>th</sup>, 2021. Oh, do you mean with the additional
- 434 corrections made tonight?
- Commissioner Silverman: Yes, that's what we're referring back to a now obsolete revision.
- 436 Chair Hurd: Good point.
- 437 Commissioner Silverman: Substitute the date of whatever the most current on-screen memo is
- 438 for May 25<sup>th</sup>, 2021.
- 439 Chair Hurd: Did you understand that Secretary Wampler?
- 440 Commissioner Wampler: Yeah, I think well, why don't we add "as revised June 1st, 2021"?
- Chair Hurd: Yes. Do I have a second on that?
- 442 Commissioner Silverman: I'll second.

- Chair Hurd: Thank you Commissioner Silverman. Any discussion on the motion. Alright, seeing
- none, we'll move to the vote. I don't know if this is one that actually have to articulate our
- reasoning on, is that correct Solicitor Bilodeau?
- Solicitor Bilodeau: That's correct, just a yes or no vote will be fine.
- Chair Hurd: Thank you. Alright, Commissioner Stine?
- 448 Commissioner Stine: Aye
- 449 Chair Hurd: Thank you, Commissioner Silverman?
- 450 Commissioner Silverman: Aye
- 451 Chair Hurd: Commissioner Wallace?
- 452 Commissioner Wallace: Aye
- 453 Chair Hurd: Commissioner Wampler?
- 454 Commissioner Wampler: Aye
- 455 Chair Hurd: Commissioner Kadar?
- 456 Commissioner Kadar: Aye
- 457 Chair Hurd: And I vote aye as well, motion carries, six nothing. Excellent job everyone, thank
- 458 you. Alright, that takes us to item 6 informational items.
- 459 **6. Informational Items. (These items are for informational purposes only) (Information)**
- 460 a. Comprehensive Plan V Review Update (5 minutes)
- 461 Mr. Fortner: Good Evening Chair Hurd and Commissioners, on the Comprehensive
- Development Plan review the committee did not meet in May, they are meeting this week on
- Thursday June 3<sup>rd</sup>, they'll be reviewing the housing and transportation chapters, revisions to the
- chapters. That means that we're open to the public and that's all I have.
- Chair Hurd: Did you want to talk at all about your presentation to the Conservation Advisory
- 466 Commission? Anything you want to come out of that?
- 467 Mr. Fortner: Yes, thanks Will, I did I presented to just kind of an outreach to the Conservation
- Advisory Commission and I'm going to come back next to or not today obviously, but they'll be
- meeting next week and I'll be doing another kind of like a coffee break with them (inaudible)
- just a chance for them to really discuss about sustainability components of the Comp plan and that will lead into the next month's meeting where the steering committee will be reviewing
- that will lead into the next month's meeting where the steering committee will be reviewing some of the environmental chapters of the Comprehensive Development Plan.
- Chair Hurd: Excellent, thank you. Director Gray?
- 474 b. Planning Director's Report (5 minutes)
- 475 Director Gray: Good Evening Chairman Hurd and Commissioners let me pull up my
- 476 presentation here. (inaudible) Ok so the project, I will start with the projects that have went and
- are going to Council. On May 10<sup>th</sup>, at the May 10<sup>th</sup> Council meeting the project located at 141
- East Main Street was, I believe you all heard, was denied. However, they are coming back to the
- 479 Council for, according to Solicitor Bilodeau, the term is for a "revote" or a reconsideration
- 480 forum. Mr. Bilodeau? You were on mute.
- 481 Solicitor Bilodeau: Ok I'm sorry, you were saying?
- Director Gray: So, the 141 East Main is coming back to Council on June 14<sup>th</sup>, so the term is
- they're coming back for reconsideration of the revote or they're revoting, correct?
- Solicitor Bilodeau: Yes, there is a motion, first we'll have to have a motion to reopen the hearing
- and on the advice of legal counsel. And if they reopen the hearing, at that point the Council will
- have the opportunity to ask any other questions they have of the developer; public comment is
- closed. They'll have an opportunity to ask questions of the developer and I'll once again explain

- 488 the site plan review criteria to Council that their votes for site plan review are to be based upon.
- And then after that, assuming that the motion to reopen is granted then there will be a vote on
- site plan review. And then if that vote passes then they will vote on the special use permit which
- 491 they never got to at the last hearing.
- Director Gray: Thank you, I just wanted to make sure that I got that right. Thank you, sir. Ok, so
- on May 24<sup>th</sup>, there was a Council meeting College Square (inaudible) there was a renaming of
- the streets and the name of the subdivision, and it's now called The Grove at Newark. And the
- streets got renamed as well as the sign package got revised as well. And that was a (inaudible).
- 496 Upcoming meetings, I mentioned June 14<sup>th</sup>, also on June 14<sup>th</sup> is the second reading for the
- proposed revisions on the setback ordinance in BB zone. Two projects that you all heard and
- made recommendations on that have been scheduled for Council. The first one is 268 East Main
- Street, but it's scheduled for a first reading on June 28<sup>th</sup> and a second reading on August 9<sup>th</sup>.
- 500 1501 Casho Mill is scheduled for a first reading on June 14<sup>th</sup> and a second reading on July 12<sup>th</sup>.
- As you all know Planning Commission Training is coming up, this month. And that's June 22<sup>nd</sup>
- at 7:00pm and that will be a virtual meeting and that will be lead by Max Walton and the subject
- matter will be land use zoning and the Planning Commission. And it will also be recorded so
- just in case someone can't make it, they'll have the opportunity to review it later. But I
- understand that everyone except for Stacy can make it. Certainly, there'll be time for interaction
- and discussion. We're also inviting the Council too just in case anyone from the Council would
- 507 like to attend.
- 508 Chair Hurd: Director Gray, a quick thought I just had. That would be a useful thing to save and
- 509 have for onboarding new commissioners.
- 510 Director Gray: Yes, I thought of that as well chairman.
- 511 Chair Hurd: Oh good, thank you.
- 512 Director Gray: You're welcome. So, some other meetings that have occurred since we met last,
- the TID Steering Committee met actually twice they've been very busy. They had a meeting on
- May 12<sup>th</sup> and then a follow up meeting on May 26<sup>th</sup>, and they have made a list of
- recommendations on a list of roads and bikes and pedestrian improvements, and that list is
- scheduled for the next Planning Commission meeting on July 6<sup>th</sup> that'll be coming to you all to
- review and make recommendations to Council on. Other news and this are internal meetings that
- we've been having getting ready, we're utilizing our planning services contract, and we have
- awarded a scope of work to AECOM to assist with building permit reviews. Currently we are
- waiting to hear back from IT for them to do their IT thing to allow a contractor to have outside
- access into a certain part of our system, data management system so they can review building permits. And once that occurs, they'll come on site for a couple of days for some training. Mike
- 523 mentioned the Steering Committee Meeting schedule for this Thursday, June 3<sup>rd</sup>. Couple land
- use projects: we've received revised plans for the Mill at White Clay (inaudible) 500-700 Creek
- View Road we had issued a SAC letter and that had a number of changes that the applicant
- needed to make on it. And we just received those revisions so that is out for review. Projects
- tentatively scheduled for July, inaudible) plans that are under revision we recently sent out SAC
- 528 comments on 10 and 16 Benny Street project we'll be sending out the SAC letter for the sketch
- plan for the Chick fil A, proposed Chik-fil-A on Ogletown Road and the projects in house that
- we're working on. The SAC letters sketch plan for University Commons, I just mentioned the
- Mill at White Clay and a Cell tower proposed off Cooches Bridge Road. So, what we're looking
- for at July and the July agenda tentatively, this is tentative, the Otts Chapel Road and Elkton
- Road annexation, which was lined up for tonight's meeting, which is why this meeting is so
- short. It's never a bad thing to have a short meeting. The applicant it was did not publicly notify but otherwise it's ready to go. So that's why I had to (inaudible) tentative agenda. So, that will be
- on next month's agenda, we're looking to have a cell tower for Cooches Bridge Road, and the
- 537 TID packet list. We're also going into activities (inaudible) planning review and we're going
- into budget season. So, yay. On the Planning Department end, as you all know the University of
- Delaware students are moving out, so our property maintenance team are busy some of the
- projects that are going on out in the field that you all have reviewed. 321 Hillside they are
- moving along with the townhouses and apartments actually I was just on a field visit today; they
- have a long way to go but they are progressing. The Fulton Bank project the plumbing has been

- completed for the apartment units, so they are moving along. Also, I'm sure you all have noticed,
- 544 it's been interesting to see the difference in building construction type the senior living project
- on Barksdale Road, they are utilizing steel construction and they are they're units are kind of
- prefab, so that building is going up very quickly. So, that's just.... the Lehigh Flats buildings the
- renovation continues. Those are. We were actually talking about this today, which is interesting,
- the Lehigh Flats apartments when they first started renovations, it was my impression that these
- apartments were student apartments, so now they have turned over so now they are barely any
- students and mostly nonstudent apartments. So, it's just kind of interesting how that
- neighborhood has changed over. Some (inaudible) projects you might be interested in, the 62
- North Chapel project, that's the 4-story project on North Chapel we have received applications
- for plans on that project, so they are getting ready to move forward on that. So that pretty much
- is the end of my report. I'll be happy to answer any questions you might have. Thank you.
- 555 Chair Hurd: Thank you Director Gray. Any questions for the Director? Alright, moving on to
- item 7, new business.
- 7. New Business. (Introduction of new items for discussion by City Staff or Planning
- 558 Commissioners. New items requiring public notice will be added to a future agenda.)
- 559 (Information) (5 minutes)
- Chair Hurd: Is there any things on the minds of the Commissioners that they wish to share? That
- could possibly become later agenda items. No? Ok moving on, Item 8, general public comment.
- 8. General public comment. (Regarding items not on the agenda but related to the work of
- the Planning Commission) (Information) (5 minutes)
- Chair Hurd: I haven't seen anything in the chat, but we will open the floor to anyone from the
- public who wishes to comment on any items not on the agenda, general planning questions,
- 566 concerns?

579

- Commissioner Silverman: Will, I'd like to make a comment under this heading. What's the
- status or effort on our focus areas? It seems our mixed-use concentrating students, different
- living (inaudible) is this taking a back seat to the Comp plan?
- Chair Hurd: Well, no. Maybe Planner Fortner can speak to this. My thinking or my assumption
- was that that was something that was going to come in front of the Steering Committee. We just
- haven't gotten to those chapters yet, where we'd be addressing the proposed focus areas.
- 573 Mr. Fortner: Yeah, that's correct, I have those in the tentative drafts. I plan on in the version that
- the Steering Committee review they would view those focus areas and as a proposal to insert into
- 575 the Comp plan for it's being called the review, 2.0 version.
- 576 Commissioner Silverman: Thank you.
- 577 Chair Hurd: Ok, anyone else? Alright, closing public comment which brings us to the end of our
- agenda. And so, we close this meeting by acclimation, thank you all.

580 Commissioner Hurd Adjourned the meeting at 8:05 PM
