Part Four: Suggested park facility/amenities to add to City Park System	69
Part Five: Comment Section – Verbatim Comments	73

ACKNOWLEDGEMENTS

Many people assisted with conducting and preparing the 2016 Newark Resident Survey. I would like to thank all City Staff for their comments and suggestions during the development of the questionnaire. Their input helped create a comprehensive survey.

I would specifically like to thank a few key participants:

- **Daniel Hutton, Intern, Scott Eisenhart, Intern, and Caitlyn Lloyd, Intern, Newark Fellows Program:** Daniel, Scott, and Caitlyn provided hours of data entry in recording the questionnaire responses in Excel, tabulating the results, and creating the corresponding charts.
- **Maureen Feeney Roser, Planning and Development Director:** Maureen provided assistance and guidance during each phase of this project.
- **Michele Mirabella and the participants of the Chimes Delaware Vocational Program:** Program participants of Chimes Delaware folded, stapled, labeled, stamped, and mailed over 4000 Resident Surveys to Newark households. This saved the City of Newark hundreds of hours of staff time.
- **Daina Montgomery, Assistant IT Manager:** Daina provided the technical assistance to create a labeling program for over 4000 households.
- **Michelle Vispi, Secretary, Planning and Development Department:** Michelle spent hours typing the lengthy responses residents included in the “Comment” section of the report. Providing this section in the final report provides an excellent “snapshot” of how Newarker’s perceive their community.
