October 31, 2016

Newark City Council City of Newark, Delaware

2017 GENERAL OPERATING BUDGET MESSAGE

The Honorable Mayor and Members of City Council:

On behalf of the Administrative and Financial Departments of the City of Newark, with support from all departmental teams, I am pleased to submit our recommended 2017 General Operating Budget for your consideration, and approval. As required, this document represents the City's financial plan for the next fiscal year, taking into account experience, forecasting efforts, and Council direction. We attempted to align responsibilities with opportunities to better position our community for the future. As such, the budget ensures the continued provision of high levels of service and identifies the anticipated revenue sources to support our operations. The 2017 budget was developed based on a prioritization of needs for a well-rounded, full service city, requiring consideration be given to competing initiatives and community interests. As with recent years, time was devoted in 2016 towards evaluating options for increased operational efficiencies and cost savings.

Primary goals of the 2017 General Operating Budget and the associated Capital Improvement Program include addressing the needs and expectations of our community, while positioning ourselves to take advantage of innovative and/or progressive efforts to move our community forward, while managing costs and identifying future challenges. Developing meaningful partnerships, embracing efforts for economic development and improving our use of technology and communication with our citizens continue to be a high priority. Additionally, commitments to increase revenue diversification, aligned with gradually reducing our reliance on enterprise fund transfers into the General Fund will result in a more sustainable financial future.

Efforts to control costs in recent years serve as the impetus to identify additional opportunities or revisit past considerations where financial benefit may be derived. To that end, since 2012, we will have realized \$4.9 million of avoided cost savings through the end of 2017 (compared to our financial position had they not been enacted) as a result of instituting pension and healthcare reforms and operational changes with the support of Council, management staff and our employee unions. While these avoided costs were

reallocated to other areas of our operations, the availability to do so eased taxing requirements and continues to provide long-term benefits.

More pointedly, these accomplishments prevented the need for the City to find additional funding to finance our employee pension program by over \$470,000 this coming year, and have cumulatively, since 2012 saved over \$860,000 on management employee pension costs alone, having been the first to accept these benefit changes. Likewise, the avoided costs from our health insurance premiums are over \$505,000 since making the change to the Delaware Valley Health Trust (DVHT) in 2015, with high approval ratings from our employees. Our 2017 health insurance premium increase of 8% is half of what other local communities are reporting. Finally, the departmental reorganization of 2013 and the transfer station closure of 2015 will represent cumulative cost avoidance savings of \$2.1 million and \$490,000 respectively through 2017. The success of these employee benefit and organizational changes are at the core of fiscal responsibility for local governments and some of the hardest win-wins (employee/organization) for communities to achieve.

Finally, with significant consideration and effort on the part of all departments we present the consolidated 2017 Operating Budget and 2017 thru 2021 Capital Improvement Program (CIP). In summary, the core action items include:

- Tax increase of 9.0% (contributes \$300,000 in 2017 revenue; \$600,000 long-term annual revenue)
 (requires Council approval)
 - o Tax increase due to:
 - General Fund expenses not met by current revenues or transfers
 - Modified from 4.5% tax increase, pending forthcoming contract ratifications with an effective date of January 1, 2017
- Revenue enhancements from
 - Land Development, Construction Plan Review, and Inspection & Testing Tasks \$200,000
 (requires Council approval)
 - Staff reviewed fees for Land Development, Construction Plan Review, and Inspection & Testing Tasks. Excludes impact fees
 - o Parking Fee \$100,000
 - Hold \$1.00/hour rate. Per Parking Committee recommendation, restructure offstreet parking rate from \$.50/30 minutes to \$1.00/hour to cover increasing cost to run parking facilities. Maintain first 10 minutes for free
 - Emergency Services Fee \$200,000 (requires Council approval)
 - Building permit surcharge of 0.5% of the construction value as determined by the
 City of Newark
 - Additional revenue generated would fund public safety expenses and subvention to the Aetna Fire Department
 - Court Security Fee \$45,000 APPROVED BY COUNCIL
 - Fee increased from \$5 to \$10 per <u>Bill No. 16-27</u>, and no longer has a sunset provision. Funding is to be used solely for the Alderman Court

- 4.5% Water rate increase necessary for 2017
 - The above noted increase does not reflect the outcome of stormwater utility discussions nor the final water/sewer rate study recommendations. However, the increase is necessary to fund 2017 budgeted operations. See stormwater utility presentation (BV Study)
 - o Contributes approximately \$440,000 in annual water revenue
 - The 2017 CIP provides for \$3,608,880 of Water Fund projects to be completed utilizing
 2017 current year revenue totaling \$1,913,000
- No Electric rate adjustment for 2017
 - The 2017 CIP provides for \$1,765,500 of electric projects to be completed utilizing 2017 current year revenue totaling \$1,722,000 million
- 3% Sewer rate increase anticipated in 2017
 - The above noted increase does not reflect outcome of our stormwater utility discussions or the final water/sewer rate study recommendations. However, the increase is necessary to fund 2017 budgeted operations. See stormwater utility presentation (BV Study)
 - o Contributes approximately \$215,000 in annual sewer revenue
 - The 2017 CIP provides for \$1,013,675 of sewer projects to be completed utilizing 2017 current year revenue totaling \$720,000
- Responsible application of the \$4,355,000 in 2017 current resources toward capital improvements as follows:
 - Electric \$1,722,000 transformer & circuit replacement; new lines and services;
 Reconductor on Main Street; 12kv changeover; SCADA system; conductor upgrades; and vehicle replacement
 - o Water \$1,913,000
 - Water projects \$1.5 million water main, Windy Hills to Red Mill; alternative disinfection equipment; well restoration; water main renovation program; and water tank maintenance
 - Stormwater \$440,000 storm drainage improvements; NPDES Phase II stormwater quality
 - o Sewer \$720,000
 - Sewer projects \$720,000 sanitary sewer repairs; sewer system master plan;
 sewer pumps/pump station; SCADA system

2017 - Discussion of Challenges and Initiatives

In developing the 2017 budget, a process that began last spring, staff and I had the opportunity to again discuss our organizational challenges and initiatives. Certainly, the effort to compile our annual budget has not become easier, however, our interest to align funding for initiatives and services, across departments where it can provide the most benefit, reduce future costs when possible, and positively impact the character and economic vitality of our community remains our priority.

While challenges are sure to emerge when managing competing needs and interests as required of local governments, how we respond to these challenges is what will set our community apart from others. One only needs to consider how Newark met both its water quantity and quality challenges between years 2003 and 2006 by constructing both a 317 million gallon pumped storage reservoir and water treatment plant, (two of the state's "A" list projects aimed at improving self-sufficiency during times of drought) to understand our community's acumen for meeting challenges.

Our organization's most valuable resource, our personnel, currently makes up 62% of our overall budget costs. Likewise, increased personnel costs, including salary and benefit provision adjustments, new positions, or to recruit and maintain suitably skilled staff, impacts the budget's bottom line and with the exception of our enterprise fund departments (Water, Sewer, Electric, Parking) will require regular General Fund revenue enhancements. The 2017 "all in" personnel increase, before fully knowing the outcome of union negotiations is \$2.6 million. This figure further amplifies the importance of the pension, healthcare and operational reforms noted above. Additionally, our revenues have remained relatively flat, while the cost of providing services and meeting the expectations of our community continue to increase.

In 2016, we were unable to obtain enough support for Newark to be included in the state's PILOT funding in consideration of our high level of tax exempt property, although there was a general understanding expressed of the merit of our lobbying efforts. Continued education on our behalf by our Lobbyist and staff, including outreach to our local legislators and the County Seat communities that currently receive these funds, will continue to be a focus in 2017.

Budget discussions of recent years have highlighted Newark's admirable utilization of the "pay-as-you-go" method of financing its capital projects. While paying cash for our projects has kept our debt service low, in turn, it has prevented us from adequately funding reserves to address our aging infrastructure. At a minimum, we have come to the crossroads where high-priority projects are competing against each other, thereby requiring critical projects to be deferred. The consideration of other opportunities, whether it be bond financing, state revolving loans, or a combination of both, along with incrementally building our cash reserves must now be part of our conversation. Striking a balance between "pay-as-you go" and smart borrowing for projects with adequate lifecycle will work to preserve our highly respected AA+ bond rating.

It is clear that our tax base will not increase over the short-term at a level required to sufficiently fund our community's growing infrastructure needs. However, proper financing of our debt, accompanied with prudent planning, can ensure that both our current and future residents and business owners are paying for services at a rate that is comparable to our surrounding municipalities. The good news is Newark remains a great value!

Many communities are challenged by unfunded mandates, regulations that require a state or local government to perform actions with no money provided for fulfilling them. One arguably, community-improving example is that of stormwater regulations. Newark has implemented and funded, primarily through the water utility, an ever growing stormwater presence since 2002. To date, the costs associated with our stormwater-related projects have reached nearly \$800,000 with additional regulations expected

to increase this cost. Currently there is \$750,000 in the 2017 CIP and a total of \$2.7 million allotted for the five-year program. These costs, and our community's acknowledgement of the need to address improvements, led to our multiyear effort to establish stormwater as an equitable and standalone utility based on projected needs, impervious cover, and credit provisions for runoff improvements. We are hopeful that with the support of Mayor and Council, this effort will be successfully launched in 2017 with full implementation in 2018. While a stormwater utility will require residents and businesses to pay a fee, the funds will be allocated strictly to stormwater initiatives and once fully enacted, should have a positive impact on future water rates.

While some of the initiatives staff and I have introduced might best be described as opportunity knocking, others have followed more traditional paths. Recent decisions to consider opportunities or explore new projects have been met with mixed levels of community involvement and support. Some like the consideration of a parking garage in our core downtown have continued to engage councils, businesses and community over the course of 20 years. Other initiatives, such as our recent broadband study ramped up quickly and ultimately resulted in our making cautious investments. Additionally, there has been support this year for initiatives that required long term maintenance acceptance, such as Council's support for the development of Preston's Playground at the Newark Reservoir, and the pedestrian bridge over the White Clay Creek that will be named in honor of Charles Emerson, Newark's former Parks and Recreation Director. Lastly, our current engagement related to the potential purchase of the former Rodney dorm site is sure to command the attention of our community in the year ahead.

Newark has also taken smart/efficiency improving technology initiatives seriously by introducing five "smart city" service improvements to our community including: McKees Solar Park; smart water and electric utility meters; solar powered waste compactors in our downtown; credit enabled smart parking meters; and replacement of all of our city's cobra style street lights with LED lights! All of these projects have had beneficial impacts on our operations and community. Please see the link to our Smart City Initiatives Update.

Managing our challenges, embracing opportunities, and implementing our visions as those noted above, will continue to require thoughtful preparation regarding what actions are in the best interest of the overall community, both next year and the years ahead.

The 2017 Budget in Summary

The proposed budget for 2017, including the five-year Capital Improvements Program, currently results in a surplus of \$467,928, which represents approximately 0.9% of total revenues. This estimated surplus is divided amongst seven funds, with the Enterprise Funds accounting for 61% of the balance (\$285,876). Assuming that the expenditure budget equals the revenue estimates in 2017 at year-end, these funds would revert back to their respective reserve accounts to help grow the City's cash balances.

Major components of the consolidated budget are reflected as follows:

| | | | Increase | % Increase |
|----------------------------|------------|------------|-------------|------------|
| | 2016 | 2017 | (Decrease) | (Decrease) |
| Operating Budget | 39,797,290 | 42,488,555 | 2,691,265 | 6.8% |
| Capital Budget | 5,351,121 | 4,355,000 | (996,121) | (18.6%) |
| Debt Service | 2,605,361 | 2,616,161 | 10,800 | 0.4% |
| Reversal of Non-Cash Items | 1,150,309 | - | (1,150,309) | N/A |
| Unappropriated Surplus | 462,655 | 467,928 | 5,273 | 1.1% |
| Total | 49,366,736 | 49,927,644 | 560,908 | 1.1% |

Operating expenditures are expected to increase by 6.8%, while net capital expenditures and debt service combine for a decrease of \$1 million (-12.4%) when compared to the 2016 budget. Newark's core Operating, Capital and Debt Service spending (excluding the unappropriated surplus & reversal of noncash items) is about 3.6% higher in 2017 versus the 2016 budget. The partial reversal of noncash depreciation expenses in 2016, which was utilized in 2015 to defray vehicle and equipment spending is not necessary in 2017. If Council will recall, we had a tougher time balancing the 2015 budget. We were able to do so by pushing some equipment replacements back a year to 2016. Equipment replacements are funded through the capitalization of depreciation, or treating depreciation expenses like a cash expense and reserving these funds for future equipment purchases. Therefore, the 2016 reversal, allowed us to restore the required equipment depreciation levels associated with the 2015 decision.

2017 Budgeted Operating Expenses by Function

Total operating expenses are recommended to be \$42.5 million for 2017, or an \$2.7 million increase over 2016. The table below highlights the City's 2017 budgeted operating expenses:

| | 2016 | 2017 | Increase (Decrease) | % Increase (Decrease) |
|-------------------------------|------------|------------|------------------------|--------------------------|
| Personnel Services | 28,245,586 | 30,880,184 | 2,634,598 | 9.3% |
| Materials & Supplies | 2,257,298 | 2,277,493 | 20,195 | 0.9% |
| Contractual Services | 7,295,104 | 7,386,252 | 91,148 | 1.2% |
| Equipment Depreciation | 1,484,599 | 1,390,082 | (94,517) | (6.4%) |
| Other Expenses | 514,703 | 554,544 | 39,841 | 7.7% |
| Total | 39,797,290 | 42,488,555 | 2,691,265 | 6.8% |

Personnel Services - Personnel expenses are increasing by \$2.6 million, or 9.3% in 2017. Included in this increase are six new positions with staggered 2017 starting dates (\$535,000). These positions will be a part of the Communications Workers of America (CWA), and are: PWWR Engineer, IT Desktop Support & Network Administration, Financial Analyst, Records Technician (Police), GIS Technician and Evidence Custodian (Police). In addition, wage progression/contract negotiations (\$1,020,000), increased contribution to our OPEB escrow (\$400,000), increased medical coverage (\$562,400), and social security/other (\$117,600) are impacting our budget. We are in current contract negotiations with AFSCME and the FOP for contracts that commence in 2017, and the CWA exercised a clause in their contract to extend their contract through 2017 in exchange for a 2.9% COLA.

In addition, we are funding the pension plan for 2017 at the level recommended by our investment advisor of \$3 million, which is included in the \$30.9 million above.

Materials & Supplies - The materials and supplies lines have increased slightly versus 2016 across a number of funds and a broad mix of expense categories. Most notably, IT supplies have increased reflecting the continued initiatives to maintain appropriate functionality throughout the City's network. The Parks department is also budgeting an increase in island beautification supplies related to the sculpture garden project. These increases are partially offset by the Fleet maintenance division's reduction in materials and supplies attributable to reduced gasoline prices and the Finance department's reduction of the equipment account as the 2016 budget included \$19,000 for required furniture purchases.

Contractual Services - Contractual services lines have increased in the Electric Fund with an offsetting decrease in Finance as a result of reclassifying the Smart Meter platform to Electric. There was also a significant decrease to contractual subscription services in the Information Technology Department as their expenses were decentralized from IT and included in the applicable departments' budgets. Additionally, the Stormwater Division caused an increase to contractual services in the Water Fund as a result of \$150,000 required for the MS4 permit. This expense will occur even if the Stormwater utility plan is not approved.

Equipment Depreciation - Equipment depreciation (a non-cash, formula driven expense) decreased by about 6% versus 2016. For 2017, the useful lives of vehicles were adjusted resulting in a decrease in depreciation. This change was made to more closely estimate the actual useful lives of City vehicles based on our historical experience.

Revenue Highlights

City wide operating revenues of \$49.9 million in 2017 are expected to exceed 2016 budgeted revenue by 1.1%. Property tax contributions are responsible for most (68%) of the gross increase, while net utility revenue, permits and licenses are offsetting our estimated decline in fines, intergovernmental and other revenue. Taxable assessments grew in 2016 primarily due to commercial growth, which, along with the recommended tax increase of 9.0%, is expected to push property tax receipts 11.5% higher than the 2016 budget. Assessment Memo.

| | 2016 | 2017 | Increase (Decrease) | % Increase (Decrease) |
|-------------------------|------------|------------|------------------------|--------------------------|
| Net Utility Revenue | 31,071,441 | 31,190,288 | 118,847 | 0.4% |
| Property Tax | 6,170,630 | 6,877,185 | 706,555 | 11.5% |
| Realty Transfer Tax | 1,600,000 | 1,600,000 | - | 0.0% |
| Other Taxes and Fees | 597,970 | 625,000 | 27,030 | 4.5% |
| Fines | 1,968,392 | 1,659,675 | (308,717) | (15.7%) |
| Permits & Licenses | 2,042,470 | 2,212,406 | 169,936 | 8.3% |
| Park Fees | 587,500 | 597,600 | 10,100 | 1.7% |
| Commercial Refuse | 8,540 | 8,200 | (340) | (4.0%) |
| Parking | 2,913,805 | 2,915,500 | 1,695 | 0.1% |
| Intergovernmental | 966,264 | 829,890 | (136,374) | (14.1%) |
| Subvention | 521,766 | 523,331 | 1,565 | 0.3% |
| Other Revenue | 917,958 | 888,569 | (29,389) | (3.2%) |
| Total Operating Revenue | 49,366,736 | 49,927,644 | 560,908 | 1.1% |

Included within the 2017 budget are revenue enhancements which are necessary to insure diversification of our revenue sources. We are encouraging Council to approve our recommendation to adjust fees for Land Development, Construction Plan Review, and Inspection & Testing Tasks. Department directors have recommended fees that reflect actual costs, and that are balanced against fees charged by surrounding municipalities including New Castle County, and the cities of Wilmington and Dover. Some of these fees have not been adjusted in almost ten years and are estimated to add approximately \$200,000 in additional annual revenue.

The Parking Committee approved the recommendation to restructure the off-street parking rate by moving to the industry standard of \$1.00/hour. This adjustment will not impact the practice of not charging a fee for the first ten minutes. Moving away from the \$.50/30 minute rate will assist the City with covering credit card transaction fees (lots and meters), increased parking ambassadors to handle citizen engagement, staff to manage the more robust residential parking system, and to further our own revenue diversification efforts. This change would have a minimal impact on customers, employees, or our businesses and would generate approximately \$100,000 in revenue when implemented on January 1.

The cost to provide public safety services increases steadily year over year. Our staff has determined that by assessing a 0.5% surcharge on the assessed value of a building permit, it would generate approximately \$200,000 per year in additional revenue. These funds would be used to defease the cost of Newark's subvention payment to our local fire company, with the balance to be used for our own public safety

expenses. The Council has previously indicated that this fee should exclude residential upgrades (i.e – decks). Staff is currently reviewing the feasibility of carving out such an exclusion.

Additionally, your support of the Alderman Court by removing the sunset provision for the court security fee, and adjusting the fee from \$5 to \$10 is appreciated. The approval of <u>Bill No. 16-27</u> will generate another \$45,000 annually. This will continue to ensure the safety of our operation.

Advancements in technology, and the City's commitment to preserving our natural resources for our current and future residents, has presented challenges in the stability of the revenue needed to operate our utilities. In order to properly charge for electric, sewer and water services, we must begin to shift our fee structure from the antiquated consumption model to a fee structure that considers the fixed costs of each utility through the utilization of a customer charge. The City, similar to other utilities, must cover expenses for its infrastructure, but cannot consistently count on customer demand to cover its annual revenue requirements. Best practices in all three services that we provide suggest frequent reviews of our billing structure, and making adjustments as necessary to keep each utility financially stable. As we begin the RSA process for fiscal year 2016, we will include options to mitigate the financial impact to our utility and its customers.

The 2017 through 2021 Capital Improvements Program

The 2017 portion of the proposed five-year Capital Improvement Program exhibits gross expenditures of \$11.2 million. Reserve funding, grant funding, and vehicle equipment replacement funds are proposed for the program. The use of capital reserves and equipment replacement reserves is a routine practice for projects that were authorized and encumbered in previous periods. Grant funding is likewise a fundamental goal and remains a recurring and successful funding mechanism for Newark.

Funding for the 2017 CIP is proposed on the table labeled "2017 CIP Funding Sources." The Net Capital Improvement total of \$4,355,000 will be funded in 2017 through current year revenue, which includes property taxes, utility rates, and other current sources of revenues.

While borrowing is not included in the 2017 Capital Plan, it should be noted that any type of borrowing or funding partnership planned in future years will result in ongoing debt service expenditures and/or other operating costs which, when layered into future operating budgets, will result in reduced levels of then-current resources available for "pay-as-yougo" financing of capital projects. That said, we reiterate the need to address a greater level of critical infrastructure projects than current resources in 2017 would permit; again as noted above that need may be met through the responsible,

| 2017 CIP Funding Sources | | | | | |
|-------------------------------------|-------------|--|--|--|--|
| Capital Improvements | 11,244,546 | | | | |
| Funding Sources: | | | | | |
| Use of Reserves | (4,772,228) | | | | |
| Equipment Funding | (1,172,318) | | | | |
| Grants | (945,000) | | | | |
| Bond Issues | - | | | | |
| Other Sources | - | | | | |
| CIP Funded Through Current Revenue: | 4,355,000 | | | | |

systematic utilization of funding in a way that strikes a balance between accomplishing immediate needs and encumbering future operating costs.

| Expenditures | | | | |
|---------------------------------|------------|--|--|--|
| Electric Fund | 1,765,500 | | | |
| Water Fund | 3,608,880 | | | |
| Sewer Fund | 1,013,675 | | | |
| Public Works - General Fund | 2,438,000 | | | |
| Public Works - Maintenance Fund | 442,549 | | | |
| Police Department | 381,818 | | | |
| Parks & Recreation Department | 672,034 | | | |
| Parking Fund | 309,590 | | | |
| Information Technology Division | 562,500 | | | |
| Other Departments | 50,000 | | | |
| Gross Capital Expenditures | 11,244,546 | | | |

The table "Expenditures" exhibits planned capital spending by department in 2017. As you can see, almost 80% of our gross capital expenditures consist of infrastructure; which are electric, water, sewer and street projects.

Fund by Fund Commentary

General Fund

The General Fund is used to provide typical municipal services such as public safety, planning, administration, parks and recreation, and public works functions. In addition, the Street Division has been moved into the General Fund in 2017, per the recommendation of our auditor, CliftonLarsonAllen LLP. Newark's General Fund remains highly dependent on transfers from the Enterprise/Utility Funds to maintain a positive fund balance and maintain the level of services offered in our community. This is further highlighted by the fact that property tax revenues make up only 13.7% of our operating revenues. While in recent years we have limited the level of our transfers in association with our Financial Policies and more pointedly by our acceptance of a Memorandum of Understanding (MOU) with Governor Markell's administration, efforts to self-motivate and monitor a sustainable level of transfers in the future along with additional revenue diversifications must remain a priority. It is important to recognize that absent these transfers, the General Funds (including the Street Division), would experience operating deficits totaling nearly \$13.4 million in 2017. We should pay particular attention to our dependence on transfers, primarily from the electric fund, in relationship to the increased penetration of renewable resources in our utility system as well as the impact of conservation. Newark has already realized the impact of both on its utility margins. Dialing back on our dependency would provide future benefits.

Other Governmental Funds

Other governmental funds include the Capital Projects Fund, Debt Service Fund and the Special Revenue Funds. All capital projects associated with the General Fund are budgeted and accounted for in the Capital Projects Fund. The Debt Service Fund is used to account for debt associated with the General Fund. The Special Revenue Funds are supported mainly by grant funds.

Enterprise Funds

The Enterprise Funds are comprised of the Electric, Water, Sewer and Parking Funds. These funds are intended to be self-supporting and also contribute to the Governmental Funds via operating margin transfers.

The City's General Fund and other funds would be required to generate additional revenues in excess of \$13.7 million per year, as noted above, or require a tax increase of 209% in order to account for the total loss of margin transfers and maintain the current service levels.

The Electric Fund is projected to generate a \$11.8 million surplus before transfers in 2017. The 2017 projected transfer of \$10 million to the General Fund is roughly equal to the 2016 transfer, and is equal to the 2012 transfer pursuant to the MOU executed with the Governor's office in 2012. In 2012 through 2016, electric rates were adjusted downward and managed through the Revenue Stabilization Adjustment (RSA) in association with falling wholesale power supply costs. Wholesale power supply costs are expected to decline again in 2017, as the price of natural gas is favorably impacting what we pay for electric. However, some of this savings is being absorbed by rising transmission costs. The RSA adjustment is expected to continue to provide the opportunity to rebate customer accounts as a result of the projected 2016 over-collections.

<u>The Water Fund</u> is projected to achieve a margin of \$3.5 million in 2017, which will be sufficient to provide \$1.9 million in current funding, with the addition of reserves and equipment

depreciation for capital improvements in 2017 after meeting debt service requirements. This level of capital spending is considered the minimum required to continue with water main replacements, water tank improvements, filter, chemical and water quality improvements, and stormwater initiatives. The 2017 projected transfer of \$1.5 million to the General Fund is \$33,500 more than 2016.

<u>The Sewer Fund</u> operating margin is expected to reach \$2.1 million in 2017. New Castle County has advised that treatment rates will remain unchanged though July of 2017. The 2017 projected transfer of \$1.3 million to the General Fund is \$131,900 less than 2016.

<u>Parking Fund</u> revenue is expected to be about the same in 2017 with proposed revenue enhancements that require Council approval. We anticipate achieving an operating margin of \$0.9 million in the Parking Fund, of which \$850,000 is available to be transferred to the General Fund to support municipal services, as all of the capital projects in the Parking Fund are being met with existing reserves. The 2017 projected transfer to the General Fund is \$265,000 less than 2016.

Moving Forward

Efforts to improve the opportunity for citizens to manage utility consumption and associated costs with smart technology, and to equitably align utility costs across users by conducting and adhering to the outcome of rate studies will be of great importance as we compete for new residents and businesses. Furthermore, it is our intent, with Council direction, and whenever feasible, future budget cycles will continue to feature inflation-indexed tax increases, fixed or reduced electric revenue transfers, and modest growth in utility consumption. However, as demonstrated by next year's revenue and expense budget projections, even with our continued efforts to embrace efficiencies and work smarter, costs continue to outpace our revenues. It remains clear that our organization and community will continue to be challenged to balance our commitment to our existing service levels without the need for higher, more diversified revenues. With that said, staff and I expect to introduce additional long-term savings opportunities in the year ahead.

Budget Presentation

The 2017 Budget document is developed to comply with generally accepted accounting principles. Each operating budget is assigned to a fund group. The order in which they appear is Consolidated, General Fund, Other Governmental Funds, Enterprise Funds, and other miscellaneous funds. As in the past, consolidated revenue and expenditure summaries are presented in the front of the document, and each operating budget includes tables, statistics and annual reports for its individual department or division.

The following schedule for processing the 2017 Budget has been proposed to meet the requirements of the City Charter:

Presentation to Council:

- Budget Document and Budget Message October 31, 2016
- Public Hearing/Possible Budget Adoption November 21, 2016
- Public Hearing #2/Possible Budget Adoption December 5, 2016

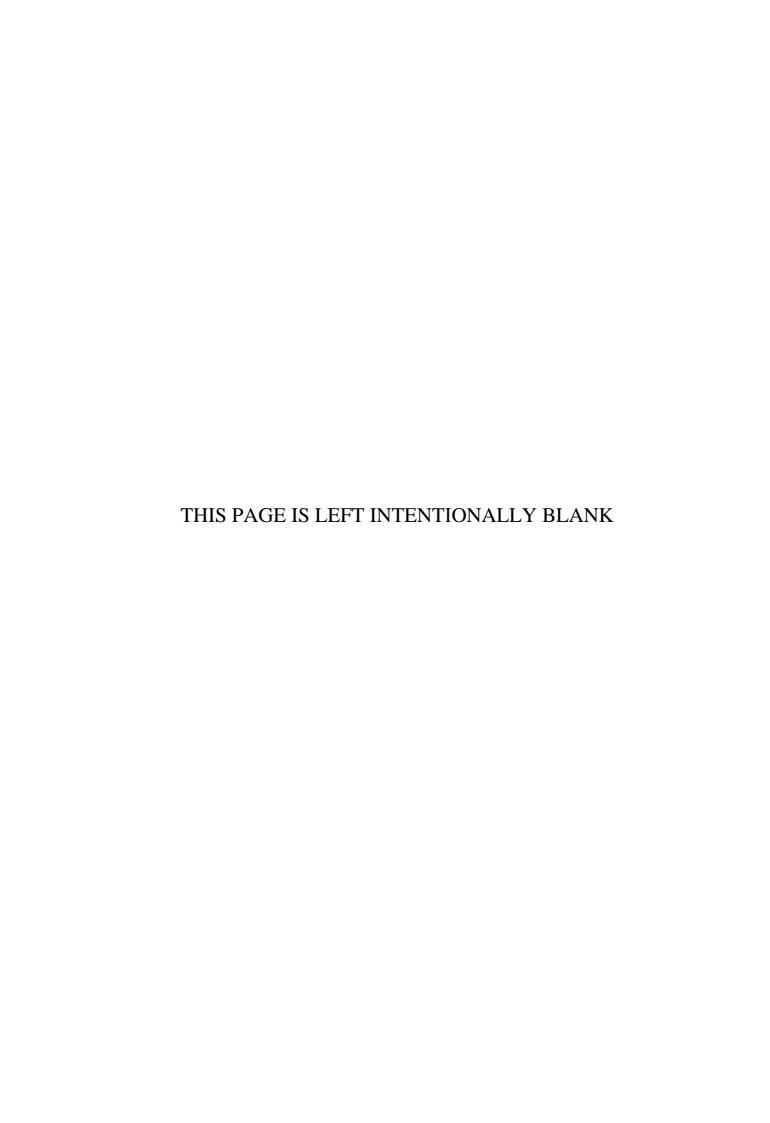

The preparation and compilation of the 2017 General Operating Budget and its accompanying Capital Program was the result of much hard work, research and prioritization of all of our departments. In particular, the Finance Department under the leadership of Finance Director David Del Grande, Deputy Finance Director Jill Hollander, Accountants Jim Smith and Debi Keeley, and Deborah Kupper worked diligently in coordinating the stages of this document's development. Likewise, I commend our Department Directors for thoroughly evaluating their needs, considering opportunities and responding to timelines and funding limitations. Additionally, Deputy City Manager Andrew Haines played a key role in preparing all personnel related detail and participating in all budget hearings with me and the remainder of our budget team this year including Planning and Development Director Maureen Feeney Roser, Information Technology Manager Josh Brechbuehl and Purchasing Administrator Cenise Wright.

As we near the end of anther budget year, and prepare for the next, my staff and I look forward to discussing our recommendations and responding to your questions. Thank you for your continued dedication.

Respectfully submitted,

Carol & Houck

Carol S. Houck City Manager

CITY OF NEWARK, DELAWARE

ELECTRIC DEPARTMENT

City of Newark: Electric Department

The City of Newark operates its own electric utility to provide electric services to 12,800 meters, supporting commercial and residential customers within city limits. Power is purchased on the wholesale power market and delivered by the City. The electric department is responsible for maintaining 175 miles of electric lines and coordinates is services through several programs. They include:

- Meter Relay and Electrical Maintenance Program: responsible for installing and maintaining electrical systems in city buildings, water wells, water and waste water pumping stations, traffic lights and control systems, meters and other facilities.
- **Electrical Line Construction and Maintenance Program**: responsible for maintaining the City's electric lines, substation sites, substation units, circuit breakers, and transformers.

In addition to maintaining the City's electrical distribution system, new power lines, substations and underground electric utilities are constructed and installed to expand services to new customers. Additional departmental responsibilities include maintaining and installing street lights and traffic signals, trimming trees along electric right-of-way, and providing distribution and sub transmission switching and sectionalizing. Staff are also responsible for plans review, drawings and engineering analysis for construction work.

Key accomplishments in 2016 include the installation of more than 1900 LED streetlights, a voltage upgrade on Nottingham Road and Nottingham Green and the installation of a new 10MVA substation transformer at the West Main Street Substation to ensure a more reliable system.

In 2017, a new 10MVA substation transformer will be installed at the Chestnut Hill Road Substation to increase capacity and ensure greater reliability in the southern section of the City. Voltage upgrades will be completed on parts of Main Street, parts of Academy Street, Dallas Avenue and parts of Beverly Road and the 34.5KV auto transfer system installation will be completed to increase reliability and decrease the length of outages when they occur.

CITY OF NEWARK, DELAWARE

PUBLIC WORKS AND WATER RESOURCES

City of Newark: Public Works and Water Resources Department

The Public Works and Water Resources Department is responsible for potable water treatment and delivery, sanitary sewage collection and transmission services, refuse collection, vehicle and equipment maintenance, engineering, surveying, street maintenance and stormwater management through its program divisions described below:

- Engineering Division: responsible for the engineering review of new subdivisions and
 construction plans, sediment and stormwater program implementation, construction
 inspection, public works capital project development and administration, survey
 support, GIS database management, and administration of our annual Sidewalk
 Program. Engineering staff prepare reports and recommendations to the City Manager
 and City Council on facility improvements and maintain an active liaison with engineering
 consultants.
- **Refuse Division:** performs numerous services including regular trash collection, curbside recycling collection, bulk or special pick-up service, yard waste collection, and Main Street Big Belly Compactor collection.
- Street Division: responsible for several operational tasks including minor repairs of streets and curbs, repair of city owned sidewalks, maintenance of the City's yard waste processing areas, the application of traffic control signage and striping, leaf collection, and snow plowing. In addition, this division routinely helps other departments and Public Works divisions as required.
- Maintenance Division: charged with maintaining the City's 225 vehicles and pieces of motorized equipment and focused on improving fleet standardization and minimizing life cycle costs, while reducing parts inventory requirements, maintenance burden, and vehicle down time.
- Water Division: responsible for maintaining regulatory compliance, GIS database management, oversight of day to day system operations, engineering and design of facilities, supervision and inspection of construction projects, and capital project development and administration. Water construction plans and specifications are prepared for bidding under this program. Water Division engineering staff prepare reports and recommendations to the City Manager and City Council on facility improvements and maintain an active liaison with engineering consultants.
- Sewer Division: The sewer division is responsible for maintaining regulatory compliance, oversight of day to day sanitary sewer system operations, engineering and design of facilities, supervision and inspection of construction projects, and capital project development and administration. Staff prepares reports and recommendations to the City Manager and City Council on asset, equipment and facility improvements and maintain an active liaison with engineering consultants as well as the general public.

Significant Departmental accomplishments in 2016 include:

- Continued involvement as a founding member of the Brandywine Christina Healthy Water Fund steering committee. The purpose of this fund is to create a pooled funding resource from stakeholders in the watershed that can be leveraged to attract external funding sources to tackle projects identified by the fund as the most cost effective for improving the water quality and protection within the watershed. This is a great opportunity to work with PA stakeholders as any improvements made upstream from Newark will benefit us both in recreational uses in the stream as well as reducing risk and treatment costs at our surface water treatment plant on the White Clay Creek. This year we also began detailed discussions with DNREC on a watershed approach to NPDES compliance via the water fund mechanism which could potentially save the City money while improving our impact to the water quality in the White Clay and Christina Creeks.
- Replacement of approximately 4863 feet of 6" and 8" water main located on Hillside Road, Center Street, Winslow Road, Beverly Road, and Ferncliff Road.
- Completed lead paint removal and repainting of the 300,000 gallon Windy Hills elevated water storage tank. Completed maintenance and painting of the 1,000,000 gallon Louviers elevated water storage tank.
- Completed construction of a project that removed failing culverts on Jenny's Run near
 the Paper Mill Road bridge over the White Clay Creek in an effort to begin to address
 road closures due to flooding. This project required the reservoir supply line to be
 relocated beneath the stream resulting in the reservoir being offline for approximately a
 month.
- Completed filter rehabilitation at the South Well Field Water Treatment Plant. This
 project re-bed the filters and upgraded instrumentation and metering along with other
 operational improvements.
- Continued GIS database development and maintenance of the water, sanitary sewer and storm sewer systems which will be used for advanced asset management, maintenance recordkeeping, and stormwater conveyance/treatment retrofit optimization. Developed a water model and began development of a sanitary sewer model which will be used for capacity analysis, advanced asset management, and maintenance recordkeeping.
- Performed a non-destructive investigation of over 12,000 linear feet of water mains including all rail crossings and areas with frequent discoloration complaints to determine estimated remaining service life for replacement and relining prioritization
- Performed inspection of all corrugated metal storm pipe in the City to allow for ranking and prioritization for replacement and rehabilitation.

In 2017, the Department plans to accomplish the following:

 Complete construction of gaseous chlorine to bulk sodium hypochlorite conversion project for disinfection at the Cutis Water Treatment Plant. This is the same system in place at South Well Field and will reduce the significant hazards that are associated with having anywhere from 2000-4000 lbs. of gaseous chlorine on site at any one time. This project will also include building envelope maintenance (roof, siding, doors, and windows) along with removal of several interior dividing walls to allow for the conversion to take place.

- Continue work to shift more production to groundwater to improve drought resilience by rehabilitating and redeveloping Wells 12 and 23, investigating old South Well Field wells 18 and 19 to see if they can be re-drilled, and review water quality at Laird Tract wells 20, 21, 22, and 23 to see if they can be brought back online via a new treatment process at the Curtis Water Treatment Plant.
- Continue installation of SCADA equipment on water facilities
- Leverage new water GIS database to prepare a flushing plan that will optimize our flushing operations and reduce lost water and effort.
- Maintain and test the new water meters as necessary to maintain the system warranty and effectiveness.
- Modify yard waste collection schedule to allow one truck to pick up only yard waste, significantly reducing contamination that we currently experience due to the same trucks collecting refuse, yard waste, and recycling on different days of the week. This change
- Begin a proactive sewer flushing program to eventually be able to flush every main in the city every 5 years in accordance with accepted best management practices.
- Improve manhole inspection procedures to visit and inspect every manhole every 5 years in accordance with accepted best management practices.
- Finalize the sewer system master plan and creation of the sewer capacity model to assist
 with asset management, maintenance recordkeeping, capital project optimization and
 mobile workforce applications.
- Using the sewer capacity model, identify mains at or near capacity. This will eliminate the
 current conflict of interest for developers who have to determine whether or not our
 system has adequate capacity for their project before we can approve it. We will also be
 able to designate locations as lacking capacity proactively so there isn't any appearance
 of retaliation or impartiality on the City's part toward certain developers.

CITY OF NEWARK, DELAWARE

PLANNING & DEVELOPMENT DEPARTMENT

City of Newark: Planning and Development Department

The Planning and Development Department regulates all land use and development in the City and provides related ancillary services through its Program Divisions (Land Use and Planning, Economic Development, Parking, and Code Enforcement) described below:

Land Use and Planning: This division advises and makes recommendations to the City Manager, Planning Commission and City Council regarding physical development and the implementation of the City's Comprehensive Development Plan. This division is responsible for updating long-range planning documents; administering and reviewing plans and procedures for annexations, rezonings, subdivisions, parking waivers, the preservation of historic buildings, and special use permits; recommending zoning and subdivision regulation revisions; reviewing building permit and certificates of occupancy and economic hardship applications for zoning compliance; and administering the Federal Flood Insurance Program. The division also serves as staff to the Planning Commission and the Board of Adjustment.

Key division accomplishments for 2016 include amendments to the Zoning Code regarding building height and setback exceptions, alcohol sales in movie theaters, and density rounding practices. In addition, the division assisted the Planning Commission in the consideration of three annexations, three Comp Plan Amendments, six Rezonings, six Major Subdivisions, and three Minor Subdivisions. Another key activity in 2016 was the continued public discussion on the draft of the City's Comprehensive Development Plan V. The draft Plan was originally recommended for adoption by the Planning Commission on July 2, 2014 and presented to Council on July 11, 2014. Subsequently, Council held a series of public workshop sessions to revise the draft Plan and referred the document back to Planning Commission for reconsideration. The Commission considered the revised draft at two meetings, and recommended adoption of the revised Comp Plan in August of this year, with the Public Hearing and Council action to follow. The process, which began in 2012, benefitted from significant public participation and review including 48 public meetings and contributions from more than 400 unique individuals.

In addition, in 2014, based on unprecedented growth in rental housing development, City Council awarded a contract to Urban Partners to study rental housing needs in Newark, which the Division helped facilitate. The study's Phase One was completed in the spring of 2015. Phase Two kicked off on October 21, 2015 and the Division participated and helped facilitate this process, and anticipates completion by the end of 2016.

Finally, the division provides technical assistance to other City departments, Planning Commission and Council. Technical services provided include conducting, gathering and analyzing demographic data, researching topics and preparing special reports, maintaining the City library, and preparing maps, charts and visual aids.

In 2017, in addition to its land use responsibilities, the division will work on the implementation of the recommendations of Phase Two of the Rental Housing Needs Assessment Study and Comprehensive Development Plan V.

Community Development and Housing: The City has received funds under the Federal Housing and Urban Development's Community Development Block Grant Program (CDBG) since 1974 to benefit low to moderate income residents in Newark. In the 41st year (July 1, 2015 to June 30, 2016), the City allocated \$250,000 in CDBG funds to 10 separate projects and programs. The City's allocation is accessed through New Castle County under an entitlement formula based on population. Loan repayments generated by the City's Home Improvement and Facade Improvement Programs augment this allocation throughout the year.

This division administers the CDBG program according to Federal guidelines, reviews project funding requests and develops the operating budget in conjunction with the City Community Development/Revenue Sharing Advisory Committee; monitors programs for contract compliance; and directly manages the Home Improvement. In addition, the Division also administers the City-funded Promoting Owner-Occupancy of Homes and the Home Buyer's Assistance Programs. Although these latter programs do not fall under the CDBG Program, they are intended to expand homeownership and to help provide social services within the City, complementing the mission of the CDBG Program.

The City-funded Revenue Sharing Program is also managed by the Division. In 2016, \$63,284 in City funds were allocated and distributed to 12 different programs under the Revenue Sharing program.

In 2016, the division's goal was to continue to administer the CDBG Program and Revenue Sharing effectively under Federal and City guidelines, to improve the City's living environment and to expand economic opportunities for low to moderate income Newark residents. In 2017, the division will be working to continue the effective operation of both programs.

Transportation and Technical Services: The Land Use and Planning division also serves as a liaison between the City and federal, state, regional and local agencies to facilitate interjurisdictional cooperation and planning on issues of mutual concern. The division develops short and long-term transportation plans in conjunction with other City departments, the City's Traffic Committee and outside agencies such as WILMAPCO and the Delaware Department of Transportation. The Department also administers the UNICITY Bus service, which provides free bus transportation to Newark residents via agreements with the Delaware Transit Corporation and the University of Delaware.

This division spent time in 2016 working with the University, WILMAPCO, DelDOT and other jurisdictions on the Newark Regional Transportation Center, which is anticipated to begin construction in late 2017, and worked with interest groups to implement the Newark Bicycle Plan. The division also revised the Unicity Bus schedule to make it easier to read and, with minor route changes, serve more residents, including an expansion to serve the Fairfield area with the cancelation of DART Route 16 in June. Finally, the division participated in the Cleveland Avenue Street Improvements Task Force of the Newark Traffic Committee in anticipation of 2018 reconstruction of Cleveland Avenue, with an eye to improving safety and flow for vehicles, bicycles and pedestrians along this very busy corridor.

In 2017, the division will embark on an effort with DART, the University of Delaware, Cecil Transit and UD's Institute for Public Administration to help coordinate transit systems in

Newark. In addition, the Division will continue implementing recommendations from the Newark Transportation Study and Newark Bicycle Plan, participating in the management and related activities associated with the Newark Regional Transportation Center, as well as operating UNICITY.

Economic Development: This division supplements private sector initiatives to strengthen Newark's commercial and industrial well-being. It is responsible for developing and modifying long range economic development plans, monitoring the impact of City regulations on businesses, developing business incentives and recruitment programs, and producing public information materials.

In 2017, the division will focus resources on business recruitment and retention Citywide.

Parking: This division is responsible for the oversight, management, and supervision of off-street parking services and facilities downtown and the maintenance and operation of all on-street parking meters throughout Newark. In 2015, the division became responsible for parking enforcement. Since then, the division completed the successful transition of Parking Enforcement Officers to Parking Ambassadors, and our focus on improving customer service and promoting Newark as a friendly and inviting place to visit and live. At the same time, the division facilitated the transition of our current and outdated parking enforcement software, billing and reporting systems to the T2 system, which provides a platform not only for enforcement but for court purposes as well. The system is now operational and provides a seamless service for all aspects of parking enforcement.

Regarding off-street parking improvements, in 2016 the division began operating in the expanded section of municipal parking lot #2, adding significantly to the parking inventory and improving vehicular and pedestrian safety in the area. In addition, City Council managed the project to install Parking Soft fee collection equipment for all pay to park lots and the division coordinated public education about the new equipment and how to use it. The new system provides accurate information regarding lot usage and inventory, so we can consider additional lot improvements to make customer aware of available spaces.

As part of the responsibility for parking management, the Parking Division handles supervision of personnel, facility maintenance and construction, lease negotiations, customer and business relations, and marketing. In addition, the division works with the Public Works and Water Resources Department regarding maintenance and repairs; the Electric Department for the construction and maintenance of lighting, ticket spitter and booth construction; the Finance Department for accounting and bookkeeping; the Police Department for crime prevention; and the Parks and Recreation Department for landscape maintenance and snow removal. The division also works closely with the Downtown Newark Partnership's Parking Committee to develop plans for future parking improvements.

In 2017, the division is slated to take over the residential parking permit program currently managed by the Newark Police Department. The Division is currently reviewing options with the T2 software to ensure that the transition is a seamless one. The Division will continue to work to increase parking lot space inventory, improve customer service for off street parking, as

well as conduct parking enforcement activities and manage all on and off street parking functions.

Code Enforcement: This division is responsible for the administration and enforcement of the International Building Codes (ICC), related State Codes, and applicable portions of the Newark Municipal Code. The Division issues permits for rental units, signs, elevators, and construction, and also coordinates building permit review with other City departments. In addition, the division is responsible for State and City Fire Code compliance for new and existing construction.

The division's key 2016 accomplishments include consideration of Code amendments to increase compliance with residential rental permit inspections, making the existing Cityview Software system work effectively for Newark, reviewing other software options to improve services, and managing the responsibilities of municipal facilities management and cleaning services.

The division's principal goals for 2017 will be to continue to streamline services to the community, update the permitting, licensing and Code Enforcement processes, maintain municipal facilities, and assist in the implementation the recommendations of the Newark Rental Housing Needs Assessment Study Phase II results as they become available.

CITY OF NEWARK, DELAWARE

POLICE DEPARTMENT

City of Newark: Police Department

The Newark Police Department is responsible for protecting the lives, homes and properties of Newark residents. The Newark Police Department is dedicated to serving all citizens by: responding to calls for police service, enforcing state and local laws, conducting preventative patrol activities, performing criminal investigations, promoting traffic safety, and apprehending criminal and traffic offenders. The Newark Police Department's core values are the preservation of human life, integrity, professionalism and service.

The Newark Police Department's force of 93 employees is dedicated to serving citizens through the bureaus, divisions and units described below. During 2015, city management and the police department implemented an organizational restructuring. This included the formation of a management team consisting of the Chief of Police and two Deputy Chiefs of Police. Additional supervisory positons were created as the size of the sworn force has grown over the last twenty years, but supervision had not increased.

Field Operations Bureau: The Field Operations Bureau is broken down into two main components:

- Patrol Division: The patrol division has the responsibility of being the first responders to all calls for police service in the city and is comprised of five patrol platoons each with seven officers assigned to it. In 2015, the police department logged 44,434 calls for service in the Computer Aided Dispatch System.
 - The continued reduction in the Part I crime rate can be attributed in part to the Crime Suppression Plan, which coincides with the University of Delaware semester schedule. During this time frame, violent crimes spike in and around the downtown areas of the city. The Crime Suppression Plan breaks the downtown area into small patrol sectors during peak call volume times. Aggressive and proactive patrol techniques are deployed, which has shown a successive drop in Part I crime. Since 2006, Part I crimes have decreased by 48%. In addition, the patrol division has implemented Directed Patrols. Directed Patrols are when officers assigned to a certain area of the city, are directed to patrol specific areas based upon recent crime trends and citizen complaints.
- Special Enforcement Division: This division includes three units:
 - Traffic Unit: Responsible for promoting traffic safety and enforcing traffic laws.
 The Traffic Unit is also responsible for investigating serious injury and fatal motor vehicle collisions and oversees the Animal Control function. The Animal Control officer is responsible for enforcing animal violations and public education regarding animal issues.
 - Special Operations Unit: The primary responsibility of the Special Operations Unit (SOU) is to provide operational flexibility to impact specific crime and disorder problems as they arise in the community. The SOU consists of a Sergeant and three police officers, operates in a uniformed capacity and adheres to community oriented policing and problem solving principles.

- o K-9 Unit: The primary function of the K9 Unit is to perform searches, tracking and evidence detection. The K-9 Unit consists of two officers and their K9 partners and the unit is supported by donations through numerous community activities such as the Main Street Mile. In 2015 two new K9 handlers were trained and one new dog was deployed. The K9 teams are currently assigned to Patrol shifts due to manpower shortages.
- Administration and Investigations Bureau: The Administration and Investigations Bureau is broken down into three main components:
 - o Criminal Investigations Division: The Criminal Investigations Division is broken down into several different units with specialized functions. They include the General Investigations Unit, responsible for the follow-up investigation of major crimes or crime involving long term or specialized investigative efforts; the Special Investigations Unit, responsible for drug, vice and organized crime investigations and for the collection, dissemination and security of criminal intelligence; the Family Services Unit, responsible for conducting follow-up investigations of domestic violence cases, cases involving juvenile victims and offenders including follow-up on juvenile runaway or missing persons, cases involving child abuse or neglect, and acts as the department liaison with family service organizations throughout the state; the Street Crimes Unit, responsible for combating street crime using proactive tactics, conducting surveillance on known suspects, investigating nuisance crimes and providing support services to the divisions within the Criminal Investigations Division and the Patrol Division. As crime trends and community concerns rise, the Street Crimes Unit is deployed to the specific areas of the City to combat the increase; and the Victim Services Unit, which provides social work services to victims and witnesses of violent crimes including but not limited to: crisis intervention, information and support for the court process and assistance in applying for Violent Crimes Compensation.
 - Administration Division: The Administration Division Commander supervises the Administration Unit and is also the departments Professional Standards Officer. The Professional Standards Officer is responsible for investigating allegations of improper conduct on the part of the Police Department or it employees. The division consists of a Sergeant, Master Corporal, sworn officers and civilian employees who perform the below listed department functions:
 - The Crime Prevention and Crime Analysis Unit is responsible for providing security surveys, organizing Neighborhood Watch programs, responding to the media, implementing crime prevention programs, managing social media accounts, overseeing the volunteer program and public relations functions. The Crime Analysis function of this unit is responsible for analyzing crime trends and reporting them to both the Field Operations Bureau and the Criminal Investigations Division.
 - The Accreditation Manager is responsible for ensuring that periodic reports, reviews, and other activities mandated by applicable CALEA

accreditation standards are accomplished. The Accreditation Manager is responsible for developing and maintaining the Rules and Procedures Manual, preparing personnel allocation studies and management staff studies concerning various functions of the Department. The Accreditation Manager also prepares the police department for its on-site assessment and inspection conducted by CALEA.

- The School Resource Officer is responsible for investigating crimes involving juveniles as victims or offenders, managing youth-related problems, running the police explorer program, and maintaining liaison with local schools. The School Resource Officer is assigned and works full time at Newark High School and maintains a presence at the public elementary and charter schools.
- The Property Management Officer is responsible for storing and accounting for all evidence and found property, for issuing and maintaining an inventory of all non-perishable police equipment, and for coordinating all building maintenance.
- The Evidence Detection Unit is responsible for coordinating the forensic processing of major crime scenes, for submitting evidence to laboratories, for coordinating the Field Evidence Technician program, and for maintaining all supplies required for processing evidence.
- The Training Coordinator is responsible for all department training, manages the Field Training Officer Program, maintains training files for all personnel and manages the Department's training budget.
- The Property Coordinator is responsible for assisting the Property Management Officer and others within the agency for the purchasing, distribution, storage and maintenance of departmental property.
- The Auxiliary Services Commander is responsible for information technology projects, grants, communications and police records.
- The Communications Section is the City of Newark's 911 center. Thirteen full-time civilians are responsible for receiving complaints and emergency calls from citizens, retrieving information for patrol officers, and dispatching patrol officers to calls for service. The 911 center averages 100,000 phone calls per year and dispatches police to approximately 45,000 calls for service.
- The Records Section maintains a centralized records pool, sends the required reports to other agencies, and acts as a central repository for all records of official activity of the Department.

2016 Accomplishments

Training:

- Force on Force Scenario Training
- Supervisory and Executive Leadership Training
 - o F.B.I. LEEDA
 - o Command and Leadership Program
 - o F.B.I National Academy

Community Events and Social Media Outreach:

- National Night Out
- Citizens Police Academy
- Newark Police Explorer Post
- Newark Nightlife Partnership
- "Shop with a Cop"
- Active Facebook & Twitter Accounts (Over 20,000 followers)
- Crime Prevention Video Series
- Special Operations Unit participation in Camp REAL
- "No Shave November" Delaware Food Bank Initiative

Technology:

- New World CAD/Records Management System Upgrade
- Implementation of IA Pro/Blue Team Professional Standards Software

Equipment Upgrades:

- LEICA Geosystems Total Station
- (3) 2016 Harley Davidson Police Motorcycles

2017 Goals

- Implementation of Laser Shot Firearms Training Simulator
- Active Shooter Training (ALERRT)
- Officer De-escalation Training
- Fair & Impartial Policing Training
- Executive Leadership and Supervisory Training
- Implement recruitment plan in order to increase the effectiveness of our recruiting efforts in order to increase the number of minority applicants.

CITY OF NEWARK, DELAWARE

PARKS & RECREATION

City of Newark: Parks and Recreation Department

The Parks and Recreation Department operates, maintains and manages the City's Park system and Recreation services through its divisions as described below.

Administration and Planning: The Division directs and supervises all recreation, park and horticulture programs, facilities and operations. It is responsible to oversee the planning, design, construction, renovation, and maintenance of park facilities; recreation services, operating and capital budgets, department advertising and promotion, research grant funding and community partners to assist in accomplishing department wide efforts.

Key Division accomplishments in 2016:

- Continued modifying park access ways to be ADA compliant.
- Completed hard surface court repairs on one tennis court and one street hockey court.
- Expanded the Community Garden program at Fairfield Park by adding 8 more garden plots.
- Implemented a new work order system to assist us in creating and tracking wok orders for parks maintenance.
- Successfully transitioned the after school gymnastics program at Downes Elementary School from Girl Inc. We completed the first year with over 60 participants.

In 2017, the Division will:

- Pending budget approval, acquire a new activity registration software program to make the registration process more user friendly for our customers.
- Pending budget approval, continue with our ADA improvements in our parks to make the facilities more compliant.
- Redesign the recreation web page to make it more user friendly and informative for its visitors.
- Complete background checks for all of our part-time seasonal staff and volunteer coaches.
- Design and install new plantings at two traffic islands at McDonald's Circle and along 896.

Parks and Horticulture: The Division is responsible for the maintenance of 680 acres of parkland, which includes 52 park and open space areas, 17 miles of trails, more than 50 landscaped sites and more than 386 acres of forested lands. Routine maintenance and repairs are made to playground equipment, athletic fields (10), basketball (19), tennis (18) and street hockey courts (2), skateboard facilities (2), shelters (10), fencing, trails, foot bridges, buildings, pools (2) and parking lots (11). The Division also performs tree, turf and landscape maintenance, snow and ice removal at City buildings, park sites and downtown parking lots; oversees the removal of creek

blockages and contracted tree work, conducts regular inspections of all facilities and areas to identify maintenance needs, and provides support services to the recreation division for programs and events and other City departments as needed.

Key Division accomplishments in 2016:

- Completed non-native plant species removal along the Hall Trail where bamboo was located.
- Continued the eradication of bamboo at Coleman and Karpinski as well as along the Christina Valley stream behind Timberline Drive.
- Completed bridge renovation project to metal footbridge in Rittenhouse Park over Christina Creek.
- Installed new fence fabric on fence line at Kells Park along the west end at Manuel Street.
- Designed and replanted traffic island #6 on South Main Street as well as renovating the planting beds in front of City Hall along South Main Street.
- Installed three, 2- to5-year-old play units and swing by shelter in Rittenhouse Park. We also removed the existing play unit, graded and seeded that area.
- Utilizing volunteer labor started invasive plant species removal along the hall trail from Lewis Park west to Train station area.
- Contractually renovated both swimming pools at Dickey and Wilson Center Parks.

In 2017, the Division will:

- Continue ADA accessibility upgrades throughout the park system by installing more walkways to get to play units / swing units.
- Start replanting the area along the Hall Trail where the bamboo was located by Lewis Park.
- Design and install new plantings on McDonald's and Ground Round traffic islands.
- Install new fencing at both Handloff Park ballfields and Fairfield Park Ballfield around both player bench areas and other areas where needed.
- Pending budget approval overlay parking lots at Hill, Fairfield, Handloff and Kells
 Parks as well as multi-purpose courts at Handloff, and Fairfield parks.
- Continue bamboo eradication along the Christina Creek behind Timberline and Karpinski Park.

Recreation Services: The Division is responsible for planning and conducting a wide variety of recreation activities and events which enhance the quality of life for the citizens of Newark. More than 200 programs and events are offered each year which includes topics and areas such as health and fitness, youth and adult sports leagues and skill development classes, arts, camps, and community events.

Key Division accomplishments in 2016:

- Successfully conducted a CDBG funded half day camp at Dickey Park which attracted more than 30 area children.
- We coordinated another successful Mayor's Family Fun Bike Ride with over 100 participants and \$12,000 in sponsorship raised by the Mayor.
- Offered Pickle Ball lessons on a regular basis to take advantage of our new pickle ball court markings on several of our tennis courts.
- Successfully transitioned the After School Gymnastics program from Girls Inc. at Downes Elementary School. We completed the first year with over 60 participants.
- Offered a Community Emergency Response (CERT) Training with 25 people attending and learning about hazard awareness and emergency disaster preparedness skills.
- Successfully conducted the Summer Camp and Program Fair at the University of Delaware Roselle Center for the Arts as a joint venture with the UD School of Music.

In 2017, the Division will:

- Pending budget approval, implement a new online registration software system that will better serve our needs and be PCI compliant.
- Redesign the recreation web page to make it more user friendly and informative to its visitors.
- Develop a volunteer year-end report including statistics and pictures that provides information on the value of the volunteers to our community.
- Complete background checks on not only the summer camp staff but also on any part-time seasonal staff and volunteer coaches who will be working with youth in our programs.
- Complete re-design and renovation of the George Wilson Center kitchen to bring it up to meet codes as an approved commercial kitchen for all City functions, programs and rentals pending budget approval.

CITY OF NEWARK, DELAWARE

ADMINISTRATIVE DEPARTMENT

City of Newark: Administration Department

Under the direction of the City Manager and Deputy City Manager, the Administration Department oversees all operating departments and employees of the City, while working to coordinate a positive relationship with our community, including the state, University of Delaware, local businesses, community groups, and neighborhood organizations.

Many interdepartmental activities are coordinated by employees of the Administration Department who work with Department Directors and other City employees to address challenges or provide project assistance. This Department continually evaluates departmental staffing and services in an effort to ensure the optimal use of resources and appropriate levels of staff deployment. This Department assists in the formulation of City policies and is responsible for the execution of ordinances, charter provisions and City Council actions. Additional time is spent resolving problems and concerns received from the public and providing research assistance to all areas of the organization and Newark's Mayor and Council.

A detailed breakdown of the Department functions, as well as highlights from the previous fiscal year are provided as follows:

Personnel Administration: This division, led by the Deputy City Manager, is responsible for the personnel and human resource functions, including policy formulation, recruitment, selection, promotion, training, discipline, performance evaluation, and fringe benefit administration.

In the area of recruitment and selection, the Administration Department handles the hiring of new employees as well as in-house promotions and transfers. During 2015, the Department was involved in the recruitment of fifty-four (54) regular full-time and part-time positions, of which twenty-one (21) were full-time and thirty-three (33) part-time. The promotion, upgrade and reclassification of fifty (50) city employees occurred, and the hiring of twenty-two (22) temporary employees or interns was completed as well. Additionally, the division coordinated with the Police Department Administration to complete a new recruitment for police officers and create a new employment list. Of the twenty-one full-time employees noted above, twelve were recruited and hired officers.

Labor Relations: This division is responsible for the administration of labor relations involving three collective bargaining groups covering approximately 239 full-time and part-time employees. This includes contract negotiations, the administration of collective bargaining agreements and the resolution of grievances and disputes submitted by employees. The division is responsible to provide management employees with assistance and advice in the interpretation of contract provisions and grievance administration. No contract agreements expired in 2015, however, all three agreements are up for expiration in 2016. The CWA agreement has an extension clause, while AFSCME and FOP each expire on December 31, 2016.

Information Technology: The Information Technology (IT) Division is responsible for providing the technology infrastructure, line-of-business application management and daily support services for all City of Newark buildings, departments and users. IT is also responsible for: general workstation and end-user support; servers and group services; web applications;

researching new and innovative technologies; networking and communications support; security; computer operations and facilities; training and education; Geographic Information System (GIS); and digital records management.

The team is comprised of 10 staff and in 2016, accomplished many projects to improve City IT resources. These projects included the implementation of a new work order management system to help improve accountability, decision making and resource allocation. Along with the work order management system, upgrades to the server virtualization environment, internal network systems, data security and process improvement across all departments were completed.

IT's primary role is to ensure all City Staff are able to work quickly and efficiently and the IT Department did so by addressing over 2,200 IT related helpdesk tickets and by building a new Digital Records Management Center with staff and software used to scan and organize documents.

Purchasing: The Administration Department handles the purchasing, contracting and negotiating for the acquisition of materials, supplies, equipment and services used by all City departments. This includes the development and/or review of contract and request for proposal documents and the resulting evaluation of bids and proposals. The Administration Department makes recommendations to Mayor and Council regarding the award of all bids and proposals. The Department also provides oversight and support for all large scale projects and programs. In 2015, 1,160 purchase orders were issued by the Department. For purchases exceeding \$25,000, there were 17 contracts totaling \$5,498,047.

Communications: The Communications team is responsible for the design, review and approval of nearly all communications produced by the City of Newark for distribution to the public. They use a variety of mediums: print, video and electronic (including web and social media) to share information proactively and also serve as a liaison with the media and members of the public to field and respond to questions or concerns. The team consists of three members: the Communications Manager, Community Affairs Officer, and Creative Designer and Web Specialist.

Increasing communication with the public was a primary goal during 2016 and was achieved with great success. In-house video production has increased and improved the amount of videos released by the City and airing on Newark TV 22. In addition, the City's social media presence continues to grow. The City Facebook page is "liked" by more than 5,600 individuals, an increase of more than 3,000 in one year; and the City's Twitter feed is followed by more than 7,000 individuals.

The Communications team also maintains City's website, which is currently going through the redesign and upgrade process through CivicPlus. We hope to launch the new website in early 2017.

Communications staff continue to maximize the value of the "InformMe" citizen notification system. In addition to urgent emergency messaging, the system allows the public to sign up for a variety of messages, and to set preferences for how they would prefer to be notified. The Communications team continues outreach efforts to encourage all residents to sign up for this service.

The Division takes the lead in planning, marketing and executing several major events with the Downtown Newark Partnership, including Restaurant Week, Wine and Dine, New Night Downtown, Food and Brew Fest and Taste of Newark, as well as several smaller events throughout the year. Division staff also assist with events organized by other departments, particularly to promote them.

Other Activities

In addition to the day-to-day administration of City operations and handling of personnel, labor relations, purchasing and public relations, the Administration Department is also involved in the following activities:

Committee Liaison: The Administration Department continues to provide staff support to the Downtown Newark Partnership Board, the Parking Committee, the Traffic Committee, and the Newark Area Welfare Committee. Staff members serve in a liaison capacity to maximize the effectiveness of various citizen boards, commissions, and authorities.

Inter-Departmental Relations: Bi-weekly staff meetings are held with the administration staff and Department Directors to facilitate communication on important issues and policies that may affect the City. Tentative City Council meeting agendas are reviewed and discussed at the staff meetings. Members of the staff also attend City Council meetings as necessary to address Council on projects or services they are responsible for.

CITY OF NEWARK, DELAWARE

LEGISLATIVE DEPARTMENT

City of Newark: Legislative Department

The Legislative Department provides clerical, administrative, research and staff support to the Newark City Council, its appointed boards, commissions and committees, and both the City Solicitor and Deputy City Solicitor. The office is staffed by the City Secretary, who is appointed by City Council and also serves as the City Treasurer, along with four support staff members.

The department serves as a liaison between citizens and City Council. It oversees agenda preparation for Council meetings, schedules meetings, advertises and provides public notification of hearings, and prepares the minutes of City Council and other committee meetings, including, but not limited to, the Conservation Advisory Commission, Board of Adjustment, Election Board and Boards and Commissions Review Committee. The City Secretary also serves as the FOIA Coordinator for the City of Newark and works with the various departments to fulfill citizen requests in a timely fashion.

This department is the City's record keeper and is leading the effort to digitize the City's numerous paper records to create an electronic archive to better serve the citizens and staff of the City of Newark. Archival records, including the Charter, Code of the City of Newark, contracts, deeds, agreements, ordinances, resolutions, escrows and minutes of City Council and committee meetings, as well as other routine administrative records are managed by this office. This department is also responsible for the official recording of numerous documents with the New Castle County Recorder of Deeds. The City Secretary serves as the complaint officer charged with resolving cable television issues covered by the City's franchise agreements with providers.

This department also serves as the administrative arm of the legal section of the legislative branch of City government. The City Solicitor's Office, consisting of the City Solicitor and Deputy City Solicitor, rely on this office for research, drafting agreements, ordinances, resolutions and full clerical support.

In addition, this department conducts the final review and approval of applications for peddler/vendor licenses, solicitation registrations and lien certificates.

Major Accomplishments in 2016

- Continued implementation of an electronic document management and records retention system to streamline the City's archival process and better protect the records of the City. By mid-September 2016, more than 27,000 documents containing nearly 220,000 pages were scanned or imported into the system. The City records housed within the City Secretary's Office are expected to be converted to digital records by December 31, 2016.
- Continued partnership with the Networks program in the Christina School District to
 provide opportunities for developmentally disabled students to receive job skills training.
 Students are assisting with the document preparation portion of the electronic document
 management project, which provides additional help at no cost to the City. The
 relationship with Networks will continue through the transition of this project to the IT
 Division.

- Continued the proofing and verification of the legal review portion of the process of recodification of the Code of the City of Newark, which has not been completed since 1970. This project is scheduled to be completed in 2017.
- Facilitation of the Boards and Commissions Review Committee's review of all City boards and commissions and subsequent presentation of those reviews to Council.

Objectives for 2017

- Launch of agenda management software and paperless packets for Mayor and Council as of January 1, 2017.
- Completion of the recodification process for City Code.
- Completion of the work of the Boards and Commissions Review Committee.
- Continue promoting accessibility and transparency for the citizens of Newark to the records of the City and the legislative process.

CITY OF NEWARK, DELAWARE

JUDICIAL DEPARTMENT

City of Newark: Alderman's Court

The Alderman's Court is designated as Court No. 40 and falls under the jurisdiction of the State of Delaware Chief Justice. All Traffic and Criminal Misdemeanors in and for the City of Newark are handled in the Alderman's Court. The Alderman (judge) is required to be an attorney, licensed in the State of Delaware, recommended by City Council, appointed by the Governor and confirmed by the Senate. The Alderman serves in the capacity of the Chief Alderman in the State of Delaware, as this is the largest Alderman's Court in the State. A Deputy Alderman is also appointed to serve on the bench in the absence of the Alderman.

The Alderman's Court has jurisdiction over all traffic, criminal misdemeanors and parking violations in the City limits of Newark. This also includes building and animal code violations. The Court is in session three to four times a week consisting of Monday, Wednesday and Thursday or Friday mornings.

The goals of the Alderman's Court are to provide professionalism in support toward defendants, the Alderman and the City; and maintain administrative and financial reports to the City Council and State of Delaware.

This office has a staff of five, including the Clerk of the Court who is responsible for the daily operation of the Court and reports to the Alderman on judicial matters and to the City Manager on administrative practices. The office is responsible for maintenance of court proceedings, scheduling of arraignments and trials, payment of fines, parking tickets, code violations, collection and disbursement of fines and other funds within the city and the State of Delaware. In 2105, a total of 11,184 cases were filed in the City of Newark Alderman's Court. Of those filed, 7,232 cases were finalized and \$813,722.51 was collected in court fines. In addition, the Court collected \$414,656.82 in parking fees, \$18,660.00 in civil citation, and \$40,484.86 in security fees, totaling \$1,314,464.19.

Many improvements have been made to the Court in the past several years to enhance customer service and increase security. Such measures include: on-line payments for all traffic and criminal fines imposed, including parking tickets; installation of video connection in the court, providing the ability to view videos of incidents on film; installation bullet resistant glass and walls; and the addition of a bailiff to oversee the operations of the court sessions. In 2016, a kiosk was installed in the Court lobby to allow the public to make payments by credit card.

CITY OF NEWARK, DELAWARE

FINANCE DEPARTMENT

City of Newark: Finance Department

The City of Newark Finance Department is the centralized financial reporting and service organization comprised of Financial Management, Accounting, Budgeting and Payments & Utility Billing (PUB). Our function is to provide support to both our internal and external customers.

Accounting: The accounting program is responsible for financial accountability and reporting, asset and liability management, revenue recognition and billing, and the disbursement of funds. Financial accountability duties include accurately recording information and reporting data in understandable formats for internal and external purposes. Asset management provides for the security, control and accounting of cash, receivables, operating inventory, buildings and property, equipment and pension funds. Liability management includes proper recording and reporting of all short- and long-term liabilities, such as accounts payable, encumbrances, debt and capital lease obligations. Primary activities include investment management, liability insurance and risk management, and accounting for all of the City's funds. Revenues billed through the accounting office include property taxes, business license fees and other miscellaneous charges. Disbursement of funds refers to the timely and accurate processing of accounts payable and payroll.

Budgeting: The budget process is the joint responsibility of the City Manager and Finance Director. The program consists of two major parts; a five-year capital improvement program (CIP) and the annual operating budget. The five-year CIP is updated annually with the operating budget. The annual budget is a policy statement and a legally binding control document setting forth the financial operations plan for the coming fiscal year. The capital and operating budgets are adopted by the City Council following the City Manager's review and a public hearing. The 2017 budget for all funds totals \$50.1 million including a \$4.4 million net capital budget.

The budget program is responsible for revenue estimation, preparation of estimated expenditures for the current year and projection of expenditures for the coming budget year based on input from the City management team, monitoring of budget activity during the year, and periodic analysis and reporting of budget status. Additionally, it is the responsibility of the budget program to estimate required resources to fund programs and to propose utility and tax rates at the proper level to fund these programs.

Payments and Utility Billing (PUB): The Payments and Utility Billing program is responsible for providing assistance to utility customers in establishing and terminating service, answering billing and service inquiries, executing the billing process for the City's electric, water and sewer utilities, processing customer payments, managing delinquent utility accounts receivable and providing customer education and information on city operations. Commercial and residential utility customers, including City residents and out-of-town water customers, receive monthly billing statements for usage metered by the City's new smart meter technology. The billing volume is managed efficiently by staggering cycles into daily workflow.

This group also undertakes mail responsibilities, such as sorting and delivering parcels within municipal locations, processing, folding and inserting outgoing mail, and preparing mail for presort and pickup. Miscellaneous duties include automated collection calls prior to disconnecting services

for non-payment, bank deposits, interfacing with financial intermediaries to streamline payment posting processes, and posting non-utility payments such as tax and business license payments.

Goals of the Finance Department for 2017 are:

- Maintain national recognition for excellence in financial reporting from the Government Finance Officers Association for the City's 2016 Comprehensive Annual Financial Report.
- Support the City Manager with fiscal solutions to support the services and programs citizens
 expect and deserve through the development and implementation of a long-range plan to close
 the operating budget gap while maintaining or extending service delivery to the public.
- Properly record and account for all financial transactions, prepare accurate, informative, and timely financial reports, disburse City funds in an efficient manner, maintain financial, property tax and payroll records, operate the risk management function to provide maximum return on City funds, and provide adequate insurance protection at the lowest possible cost.
- Prepare an annual operating budget and a five-year capital improvement program to meet the Charter deadline and communicate the City's financial plan, forecast the anticipated revenues and expenditures necessary to maintain adequate reserves for future improvements, coordinate the budget preparation process with departments to institute participatory budgeting techniques and ensure that resource allocation decisions are implemented in the most effective and efficient manner.
- Maximize the usage of the Utility Billing software to improve utility information management, to accurately capture utility consumption and revenue figures, record and account for income from utility sales, to build reliable statistics for use in utility budgeting and forecasting, and to provide responsive and courteous customer service in the pursuit of service excellence.

Accomplishments achieved by the Finance Department in 2016 are:

Accounting:

- Anticipation of receiving national recognition for excellence in financial reporting from the Government Finance Officers Association for the City's 2015 Comprehensive Annual Financial Report.
- Received an unmodified opinion from CliftonLarsenAllen LLP, for the City of Newark's financial statements for year-ending December 31, 2015.
- Successfully implemented new accounting standard, GASB 68, which required all state and local governments to record their net pension liability on the statement of net position as of December 31, 2015.
- Revised the City's unified statement of investment policy objectives and guidelines for the Pension Plan and Retiree Health Insurance Trust or "OPEB Trust."
- Drafted a new investment policy for the City's cash reserves.

 Conducted a successful RFP for investment advisors for the City's cash reserves, Pension and OPEB plans.

Payments and Utility Billing (PUB):

- Performed a utilization review on the City's utility billing system to ensure that the utility billing software is fully utilized.
- Implementing "Summary Billing" where customers with multiple accounts will be able to consolidate their accounts onto one bill.
- Multiple system efficiencies were achieved, such as: inactive rental permit cleanup within our billing system, meter changes to minimize physical disconnects, mailing address updates for landlord/tenants utility bills, growing proficiency within MeterSense, and an Application Support Specialist dedicated directly to PUB operations.
- Welcomed 13,243 visitors and handled 30,236 phone calls during the period from September 30, 2015 to September 30, 2016.
- Reduced the amount of manually processed payments from 65,536 to 45,683 using the Lockbox Feature in NorthStar as an upload comparing the previous year to the period from September 30, 2015 to September 30, 2016.
