## **ADMINISTRATION DEPARTMENT PROGRAM NARRATIVE**

Under the direction of the City Manager and Deputy City Manager, the Administration Department oversees all operating departments and employees of the City, while working to coordinate a positive relationship with our community, including the state, University of Delaware, local businesses, non-profit groups, and neighborhood organizations.

Many interdepartmental activities are coordinated by employees of the Administration Department who work with Department Directors and other City employees to address challenges or provide project assistance. This Department continually evaluates staffing and services in an effort to ensure the optimal use of resources and appropriate levels of staff deployment. This Department assists in the formulation of City policies and is responsible for the execution of ordinances, charter provisions and City Council actions. Additional time is spent resolving problems and concerns received from the public and providing research assistance to all areas of the organization and Newark's Mayor and Council.

A detailed breakdown of the Department functions, as well as highlights from the previous fiscal year are provided as follows:

### **Personnel Administration:**

The Personnel Administration division is responsible for the personnel and human resource functions, including policy formulation, recruitment, selection, promotion, training, discipline, performance evaluation, and fringe benefit administration. The Division also oversees and managements the self-insured Worker's Compensation fund; managing daily claims, case investigations and operates as the in-house TPA (Third Party Administrator).

The Personnel Administration division oversees, in partnership with the Department within which the vacancy exists, the hiring of new employees as well as in house promotions and transfers. During 2016, the division was involved in the recruitment of thirty-eight (38) regular full-time and part-time positions, of which thirty (30) were full time and eight (8) part-time. The promotion, upgrade and reclassification of fifty-six (56) city employees occurred, and the hiring of fifty-six (56) temporary employees or interns was completed as well. Additionally, the division coordinated with the Police Department Administration to complete a new recruitment for police officers and create a new employment list. Of the thirty (30) full-time employees noted above, six (6) were recruited and hired officers.

Labor Relations are also handled within the Personnel Administration division and includes the administration of labor relations involving three collective bargaining groups covering approximately 240 full and part-time employees. This includes contract negotiations, the administration of collective bargaining agreements and the resolution of grievances and disputes submitted by employees. The division is responsible for providing management employees with assistance and advice in the interpretation of contract provisions and grievance administration. All three union agreements expired in 2016. CWA accepted the one-year agreement extension that expires December 31, 2017. Both AFSCME and FOP agreements had full negotiations; both settled before the expiration and without any mediation or arbitration. AFSCME's agreement is a three (3) year deal, while the FOP agreement is a two (2) year deal, with year two (2017) possessing an economic reopener.

## **ADMINISTRATION DEPARTMENT PROGRAM NARRATIVE**

### **Information Technology:**

The IT division is responsible for providing the technology infrastructure, line-of-business application management, and daily support services for all City of Newark buildings, departments, and users. IT is also responsible for: general workstation and end-user support; servers and group services; web applications; researching new and innovative technologies; networking and communications support; security; computer operations and facilities; training and education; Geographic Information System (GIS); and digital records management.

The team is comprised of 10 staff and in 2016, accomplished many projects to improve City IT resources. These projects included the implementation of a new work order management system to help improve accountability, decision making and resource allocation. Along with the work order management system, upgrades to the server virtualization environment, internal network systems, data security and process improvement across all departments were completed.

IT's primary role is to ensure all City Staff are able to work quickly and efficiently and the IT Department did so by addressing over 2,200 IT related helpdesk tickets and by building a new Digital Records Management Center with staff and software used to scan and organize documents.

### **Purchasing:**

The Purchasing division, in partnership with requesting Departments, handles purchases, contracts, and negotiations for the acquisition of materials, supplies, equipment, and services for the City. This includes the development and/or review of contract and request for proposal (RFP) documents and the resulting evaluation of bids and proposals. The Administration Department makes recommendations to Mayor and Council regarding the award of all bids and proposals. The Purchasing Division also provides oversight and support to other Departments for large scale projects and programs. In 2016, 1,067 purchase orders were issued by the Department. For purchases exceeding \$25,000, there were 14 contracts totaling \$4,569,346.

### **Communications:**

The Communications division is responsible for the design, review, and approval of nearly all communications produced by the City of Newark for distribution to the public. They use a variety of mediums: print, video, and electronic (including web and social media) to share information proactively and also serve as a liaison with the media and members of the public to field and respond to questions or concerns. Live Stream of Council meetings started in 2017, is managed by this team, and is awaiting grant funding to procure a more permanent production solution. The team consists of three members: the Communications Manager, Community Affairs Officer, and Creative Designer/Web Specialist.

Increasing communication with the public was a primary goal during 2016 and was achieved with great success. In-house video production has increased and increased the number of videos released by the City and airing on Newark TV 22. In addition, the City's social media presence continues to grow. The City Facebook page is "liked" by more than 5,600 individuals, an increase of more than 3,000 in one year; and the City's Twitter feed is followed by more than 7,000 individuals.

## **ADMINISTRATION DEPARTMENT PROGRAM NARRATIVE**

The Communications division also maintains the City's website, which was recently redesigned and upgraded through CivicPlus – efforts that were recognized on the national level by the City-County Communications & Marketing Association.

Communications staff continue to maximize the value of the "InformMe" citizen notification system. In addition to urgent emergency messaging, the system allows the public to sign up for a variety of messages, and to set preferences for how they would prefer to be notified. The Communications team continues outreach efforts to encourage all residents to sign up for this service.

The division takes the lead in planning, marketing and executing several major events with the Downtown Newark Partnership, including Restaurant Week, Wine and Dine, New Night Downtown, Food and Brew Fest, and Taste of Newark, as well as several smaller events throughout the year. Division staff also assist with events organized by other departments, particularly to promote them.

### **Other Activities:**

In addition to the day to day administration of City operations and handling of personnel, labor relations, information technology, purchasing, and public relations, the Administration Department is also involved in the following activities:

### **Committee Liaison:**

The Administration Department continues to provide staff support to the Downtown Newark Partnership Board, the Parking Committee, the Traffic Committee, and the Newark Area Welfare Committee. Staff members serve in a liaison capacity to maximize the effectiveness of various citizen boards, commissions, and authorities.

### **Inter Departmental Relations:**

Bi-weekly staff meetings are held with the administration staff and Department Directors to facilitate communication on important issues and policies that may affect the City. Tentative City Council meeting agendas are reviewed and discussed at the staff meetings. Weekly reports are prepared and provided to Council summarizing progress on important projects and initiatives by each Department. Members of staff also attend City Council meetings as necessary to address Council on projects or services they are responsible for.

## ADMINISTRATION DEPARTMENT FY2017 ACCOMPLISHMENTS

### **Key accomplishments in 2017 include:**

The City Manager's Office effectively worked with all impacted departments with the large spike in retirements due to the successful Early Retirement Incentive Program. This included transition plans for key staff, recruitment and onboarding of many new employees, and when relevant, the promotion of existing staff to backfill vacancies due to the ERIP. Year to date, forty-two (42) full-time recruitments have occurred, plus regular part-time and seasonal employment efforts.

HR team relaunched the Employee Safety Committee, having direct buyin from the employees as stakeholders in daily safety. The team continues to manage the \$23,000 wellness grant from DVHT. Annual Wellness Fair, Biometric Screenings continue to educate and engage employees, as well as other wellness initiatives to expand a culture of wellness to positively impact claims.

Purchasing has completed year-to-date over 900 Purchase Orders, with vendor management for procurement and payments; twelve (12) contracts have been developed and executed for City needs; 4 RFP's have been written, soliciated, reviewed and administered, with four (4) additional RFP's in process. The team took on additional centralized administrative support to the IT Division for organization-wide purchases and ensures departments are following purchasing guidelines.

Communications launched a new City website with a cleaner address ([newarkde.gov](http://newarkde.gov)) that received national recognition from 3CMA (City-County Communications & Marketing Association). LiveStream video for City Council meetings started, as the Comcast Franchise agreement was negotiated, which will provide a one-time grant to be used in EG Channel enhancements. These funds (\$31,520) will be used to procure permanent video solutions for meeting video streaming. The team has also expanded video content on the City's YouTube channel (84 videos) and started in August Newark News Brief, a 2-2:30 minute bi-weekly news update of current City events and news. A monthly newsletter was developed in August and started in September as an insert to utilities bills.

Each division (HR/IT/Communications/Purchasing) all supported the City Manager in their goal to provide an earlier budget process to Mayor and Council, with the Finance Department. This expanded effort was completed in parallel to existing departmental service operations with positive involvement and constructive feedback to continue to improve future efforts.

Listed separately in the IT Division are its accomplishments, as a division of the Administration Department.

**ADMINISTRATION DEPARTMENT  
FY2018 GOALS**

**Goals for 2018 include:**

Successfully assist Council in the selection of a new City Manager

Union negotiations (FOP); agreement to expire 12/31/18

Successful implementation of Stormwater utility (pending Council approval)

Successful completion of Rodney purchase referendum (pending Council approval)

Expand Employee Self Service (ESS) for broader HR access, comprehensive Open Enrollment and additional digital ESS features

Successfully facilitate a referendum for water infrastructure

Support the divisional goals of the Administrative Department, which are HR/Labor, IT, Communications, Purchasing and temporarily assigned Parking Division and Facilities Maintenance

PROJECT NO:	PROJECT TITLE:	PROJECT LOCATION:	
A1601	919 ROCKMOSS; BUILDING DEMOLITION	919 ROCKMOSS AVENUE	
PROJECT STATUS (SELECT FROM DROP DOWN):			New Project
PRIORITY:	1 - Highest Priority Level	Project underway and must be completed	
COMPREHENSIVE DEVELOPMENT PLANNING VISION ELEMENT:			Not Applicable

Charter § 806.1(2) DESCRIPTION & JUSTIFICATION:

The City was the winning bidder at a sheriff's sale to acquire 919 Rockmoss Avenue, a condemned piece of property for which taxes and various other liens are owed. The City has "equitable" title to 919 Rockmoss Avenue during the one year period of redemption, after which we will acquire legal title by virtue of the sheriff's deed (assuming no one comes forward and pays all outstanding taxes within the next 12 months). The period of redemption ends August 11, 2016. If no one comes forward after one year, the City intends to demolish the residence, backfill excavated areas with clean, compactable fill, and grade the site to meet the surrounding elevations.

§ 806.1(3) SUMMARY OF PROJECT DATA		PROJECT COST BY CATEGORY		
First Year in Program		CLASSIFICATION	ACCOUNT NUMBERS	AMOUNT
Est. Completion Date		Labor		
Est. Useful Life (in years)		Materials		
Est. Total Cost	22,000	Other Contracts		\$ 22,000
Est. Spend @ 12/31 (if underway) <sup>1</sup>	-	Total Project Cost		\$ 22,000
Balance to be funded <sup>1</sup>	22,000	<sup>1</sup> For ongoing projects, we must estimate total spent since inception through current year to derive the balance to be funded thereafter.		
% Complete (if underway)	0%			

PROJECT FINANCING BY PLAN YEAR							
§ 806.1(3) SOURCE OF FUNDS	PRIOR <sup>2</sup>	2018	2019	2020	2021	2022	TOTAL
CURRENT RESOURCES	22,000						22,000
CAPITAL RESERVES							-
EQUIPMENT REPLACEMENT							-

<b>TOTAL</b>	<b>22,000</b>	<b>-</b>	<b>-</b>	<b>-</b>	<b>-</b>	<b>-</b>	<b>22,000</b>

<sup>2</sup>"Prior" refers to that portion of project funding that was authorized in a prior year but which is not expected to be spent through 12/31 of the current year. Accordingly, Council is not required to authorize budget year funding for that portion, but that portion of the project will indeed represent a cash outflow in the budget year and/or "out years."

§ 806.1(4) ESTIMATED ANNUAL COST OF OPERATING / MAINTAINING PROJECT OR ASSET							
OPERATING IMPACT	2018	2019	2020	2021	2022	TOTAL	
INCREMENTAL COSTS (NET SAVINGS)							

**INFORMATION  
TECHNOLOGY  
DIVISION**

**ADMINISTRATION DEPARTMENT  
INFORMATION TECHNOLOGY  
PROGRAM NARRATIVE**

**Information Technology:**

The City of Newark Information Technology (IT) Division is a Division of the Administration Department and is lead by the IT Manager, who reports directly to the Deputy City Manager.

The IT Division is made up of four Teams; Infrastructure, Applications, GIS and Records Management.

These four Teams are tasked with providing the City of Newark Staff with IT services ranging from Desktop Support to Utility Billing Payment Services. Along with serving the Newark Police Department, this Division is responsible for technology throughout the organization.

**ADMINISTRATION DEPARTMENT  
INFORMATION TECHNOLOGY  
FY2017 ACCOMPLISHMENTS**

**Accomplishments achieved by the Information Technology in 2017 are:**

Munis Work Order Management

Munis Permitting and Taxes

Records Management

Police Department Domain, User and Cloud Migration

Server and Data Migration to the Cloud

Wide Area Fiber Network

Surveillance Cameras

Network Security Improvements

**ADMINISTRATION DEPARTMENT  
INFORMATION TECHNOLOGY  
FY2018 GOALS**

**Goals of Information Technology for 2018 are:**

Upgrade server infrastructure to Windows Server 2016

Complete IT Infrastructure for SCADA projects for:

Water (CIP W9302)

Sewer (CIP S1602)

Electric (CIP E0503)

Complete Camera Projects (CIP V1601 Parking Lots) and (CIP I1603 Main Street)

Deploy 120+ computers, upgrade NPD vehicles (CIP I1806)

Implement Recreation Software solution (I1703)

<p>Billings and Accounting: Various costs of the Finance Department are allocated based on pertinent ratios; for example, the payroll function is allocated based on the percentage of equivalent personnel head count (including temporary part-time), accounts payable function is allocated by the percentage of total budget dollars, and the accounting function is allocated by an average of the two previous ratios.</p> <p>Buildings and Grounds: Costs of the Facilities Maintenance Division are allocated to other operating divisions by the square footage of the department offices and other buildings compared to the total city facility buildings square footage.</p> <p>Electricity: Electricity consumption allocated to the department based on square footage of the department offices compared to the total City Hall building. Meter readings are obtained by the Electric Department at the end of each year. Cost is based on budget DEMEC rate.</p> <p>Information Technology: Costs are allocated based on percentage of equivalent personnel head count (including temporary part-time) with the exception of items identified specifically for utility fund items such as support for Harris billing system and smart meter network.</p> <p>Printing and Reproduction: The costs of supplies for copiers is allocated based on previously observed percentage of use by each department.</p>

Charter § 806.1(2) DESCRIPTION & JUSTIFICATION:

The City of Newark operates a complex and large virtualization infrastructure allowing for resiliency and redundancy for more than 100 physical and virtual servers. Included in this is our large data warehouse of surveillance camera footage, file storage, scanned documents and other data needs. This replacement is due to ensure compatibility and availability of these critical services across our organization. Anticipated cost for this solution is shown below based on previously purchased storage and estimates provided by the vendor.

PROJECT NO: I1801	PROJECT TITLE: Fiber Network Phase II		PROJECT LOCATION: City-Wide
PROJECT STATUS (SELECT FROM DROP DOWN):			New Project
PRIORITY: 4 - Medium	This project is a NEED and not a WANT, but no significant risk in the deferral of this item		
COMPREHENSIVE DEVELOPMENT PLANNING VISION ELEMENT:			Healthy & Active Community

**Charter § 806.1(2) DESCRIPTION & JUSTIFICATION:**

The 2017 Fiber Installation Project was a major success. Our surveillance cameras, SCADA systems, Buildings and other networked connections are now running on the Phase I network that has been installed. This project signals a continuation of the build-out to install Fiber to areas such as South College Avenue near I95, to the South Well Field Water Plant and to the George Wilson Center. While fiber to these areas are recommended for additional Police surveillance needs, there are a multitude of other solutions that are possible with these extensions, including but not limited to SCADA integration, WiFi and parking management. There would be minimal offset cost as currently two of these areas are currently utilizing Comcast services to provide access. Currently scheduled for 2019 (\$140,000). Extension of existing fiber network to 3 main areas:

South College Avenue towards I95 interchange  
In reviewing crime data, Newark PD has investigated (73) robberies since January 2015 to June 2017; (20) robberies have occurred on S. College Ave. The PD has installed a LPR in the vicinity which has proven valuable and the PD submits cameras in the vicinity would compliment investigative and preventive efforts – as there are no City controlled surveillance camera assets along the corridor. Currently, investigators rely on private entities for video evidence which is often limited to the interior of their business or property and provides limited coverage and investigative leads. Sourced: Capt. Michael Van Campen

South Well Field for SCADA

New London Road (George Wilson Center) for additional cameras and to connect facility to core network

PROJECT NO: I1802	PROJECT TITLE: Smart City - Real Time Parking Maps		PROJECT LOCATION: City-Wide
PROJECT STATUS (SELECT FROM DROP DOWN):			New Project
PRIORITY: 5 - Low	This project is a NEED and not a WANT, but it can start in year two of this CIP or later		
COMPREHENSIVE DEVELOPMENT PLANNING VISION ELEMENT:			Inclusive Community
Charter § 806.1(2) DESCRIPTION & JUSTIFICATION:			
<p>As a Smart-City Initiative, IT is proposing the creation of a Smart-Phone (Android/iOS) application that can be installed by residents and visitors to find information regarding events, parking, shopping, etc. We have continuously heard that parking in the City could stand to be improved. IT's effort to digitize data, already gathered as part of our existing parking solutions, and provide real time information via this application to those seeking parking is a creative and technologically advanced solution some of the parking issues in the City. Visitors would be able to identify, in close to real-time, how much parking is available in metered spaces as well as the parking lots themselves.</p> <p>Currently scheduled for 2019 (\$80,000)  Feedback from City Council prompted technology based solution for improving parking in downtown  Leverages current GIS infrastructure and parking enforcement solution  Gathers data from Smart Parking Meters  Combination of data would be used to display available parking on map. Accessible via smart phones and other computer devices. Would be "rolled into" future City Smartphone Application</p>

PROJECT STATUS (SELECT FROM DROP DOWN): New Project

PRIORITY: 5 - Low This project is a NEED and not a WANT, but it can start in year two of this CIP or later

COMPREHENSIVE DEVELOPMENT PLANNING VISION ELEMENT: Healthy & Active Community

Charter § 806.1(2) DESCRIPTION & JUSTIFICATION:

Continuing our efforts to provide the residents and visitors of Newark with an exceptional experience, the thought of providing no-cost internet access for some of our more widely used parks has been identified as a twenty-first century benefit that would provide additional incentive to utilize our park system for recreation or relaxation. The City already pays a large fee each month for bandwidth that is mostly utilized during business hours. Offering this bandwidth to park visitors during evenings and weekends would likely not increase the City's bandwidth needs so the cost to implement is just for new hardware in the parks. It should be noted that the chosen parks must be located near the City's new Fiber network that was installed in 2017.

Considered parks:

- Casho Mill Park
- Peter Marshall Park
- Phillips Park
- Curtis Mill Park
- Olan Thomas Park

PROJECT NO: I1804	PROJECT TITLE: Harris Automation Platform		PROJECT LOCATION: City Municipal Building
PROJECT STATUS (SELECT FROM DROP DOWN):			New Project
PRIORITY: 5 - Low	This project is a NEED and not a WANT, but it can start in year two of this CIP or later		
COMPREHENSIVE DEVELOPMENT PLANNING VISION ELEMENT:			Not Applicable

Charter § 806.1(2) DESCRIPTION & JUSTIFICATION:

Harris NorthStart (and associated applications) are used for Utility Billing and Smart-Meter Utility Management. It has been recommended by the vendor, and vetted by staff, that implementing an automation platform would substantially improve efficiency in processing utility billing. This would eliminate much of the manual efforts that our Payments and Utility Billing Team handle daily.

Placeholder Project based on feedback from Utility Billing Vendor (Harris Computer Corporation)

Would be used to automate many tasks currently performed manually, such as:

- Billing Improvements including Validation Procedures and Processes
- Credit Control – Late Payment Penalties and Disconnect Notices
- Preauthorized Payments (PAP)

PROJECT NO:	PROJECT TITLE:	PROJECT LOCATION:	
V1601	Parking Lot Surveillance Cameras	Municipal Lots	

PROJECT STATUS (SELECT FROM DROP DOWN): In Progress

PRIORITY: 3 - Medium-High The City would be taking a calculated risk in the deferral of this item

COMPREHENSIVE DEVELOPMENT PLANNING VISION ELEMENT: Healthy & Active Community

**Charter § 806.1(2) DESCRIPTION & JUSTIFICATION:**

The City of Newark parking lot surveillance system has not been refreshed in more than 10 years. The system is failing and does not provide adequate camera coverage for Lot #1, while no cameras are installed in any of the other lots. This project proposes to upgrade the system with the goal of full coverage in Municipal Lots 1, 2, 3, 4 and 5 over a 3 year period. If this project is approved, efforts will be made to acquire and install the equipment in the most efficient and cost effective manner, but at this point we propose that in the first year we will build the network necessary to support the surveillance system and provide basic coverage in hourly Lots 1, 3 and 4; the second year will add cameras to provide more detailed coverage for Lots 1, 3 and 4 and install basic coverage in monthly Lot 2; and in the third year build the network and install full coverage for monthly Lot 5. The budgeted amounts are based on vendor estimates and include hardware, installation and license fees. Once the cameras are operational, funding will need to be added to the Operating Budget to provide proactive maintenance of the surveillance system.

# **DOWNTOWN NEWARK PARTNERSHIP**

**ADMINISTRATION DEPARTMENT  
DOWNTOWN NEWARK PARTNERSHIP  
PROGRAM NARRATIVE**

**Downtown Newark Partnership (DNP):**

A community is only as strong as its core. Since the Downtown Newark Partnership (DNP) was initiated nearly two decades ago, it has provided a unique environment in which the City, its residents and business community, along with the University of Delaware work together in the ongoing revitalization of the downtown district. The DNP brings Main Street businesses and organizations together to create a cohesive voice and mission for Main Street. The Partnership hosts events intended to draw people from the surrounding area to experience Newark's unique atmosphere and highlight the various businesses that keep the downtown area thriving.

**ADMINISTRATION DEPARTMENT  
DOWNTOWN NEWARK PARTNERSHIP  
FY2017 ACCOMPLISHMENTS**

**Accomplishments achieved by Downtown Newark Partnership in 2017 are:**

Creation and approval of the Interim Strategic Plan

Reduction of Board members to 9, and appointment of new Board members in the positions of business owner – retail, business owner – restaurant, commercial landlord, cultural arts representative and resident

Revitalization of Merchants Committee and Economic Enhancement Committee

Successful launch of the Five and Wine 5-Mile Race

Successful Restaurant Week, Wine and Dine, New Night and Food and Brew

**ADMINISTRATION DEPARTMENT  
DOWNTOWN NEWARK PARTNERSHIP  
FY2018 GOALS**

**Goals of Downtown Newark Partnership for 2018 are:**

Retain the mission and vision of the DNP in line with the goals and objectives of the Main Street America organization

At the approval of Council, add a member of the Parking Committee to the Board

Have each committee meet on a regular basis and work off an approved work plan

Recruit a strong volunteer group to assist with events

Broaden range of DNP hosted events

Continue fundraising and construction of the Art Park/Sculpture Garden
